## HIGHLIGHTED INGREDIENTS

- TCA - effectively removes dead skin cells with stimulating new cell growth. Boost collagen and elastin production.
- Hydrogen Peroxide - stimulates fibroblasts and cell proliferation.
- Kojic Acid - inhibits melanin production, brightens skin, lightens sun damage, age spots, and scars.
- Peptides - improves skin texture and tone through antioxidants.
- Human stem cell growth factors - supports skin cell regeneration while soothing inflammation, accelerating healing and enhancing smoothness and firmness.
- Bis(Tripeptide-1)Copper Acetate - helps promote wound healing, collagen formation, and elasticity.
- Soothing ingredients
