In addition, Bear Grass Charter School does allow 9th & 10th grade students to take Career and College Promise classes ***if the Bear Grass Charter School team refers the student to take MCC classes***. For students to be considered to take classes in 9th or 10th grades, students must be labeled **Academically Intellectually Gifted (AIG)**. Once the student is referred, parent contact will be made and the student is then responsible for going to Martin Community College to take the placement test. ***If the student scores high enough on the placement test***, BGCS will then collaborate with MCC to schedule classes for the student.
