

IMPORTANT INFORMATION ON CORONAVIRUS

PLEASE READ

Dear Parents/Guardians:

The emergence of the Coronavirus Disease 2019 (COVID-19) in China and its spread to other parts of the world has generated a great deal of news and questions over the last few weeks.

At Agape Preschool we want to assure families that we are taking all the essential precautions and to any outbreak of communicable diseases within our schools.

We have been following the Robert Koch Institute which is the German Federal Ministry of Health as they monitor the situation in the community and within the schools, helping us guide our coordinated response. We will follow their instructions as well as taking in the consideration of Dodea.

We will follow our protocols and continue to communicate with families by email and phone using our School Messenger system (ClassTag) and on our Agape website if there are any changes or concerns.

We'd also like to take this opportunity to remind you it is still cold and flu season and we encourage everyone to continue to practice good hygiene and virus prevention practices. This includes:

- Maintain good hand hygiene by washing your hands often with soap and water, especially after coughing or sneezing.
- Cover your mouth and nose when you cough or sneeze using a tissue or your elbow.
- Stay home or keep your child home if there is a fever of at least 100 degrees. Your child must be fever free without the aid of medication for at least 24 hours before returning to school.
- Get your flu shot when possible.

If you have any questions or concerns, please contact your health care provider.

Thank you for partnering with us to keep all our students healthy. We will continue to keep you updated with any additional information as needed.

Blessings,

Agape Preschool Staff
