

Annual Preventive Maintenance (P.M.)

Inspect

☐ **Brake System**

- Test:

Air brake system
Parking brake
Emergency stopping system

- Inspect:

Brake pads
Drums
Hydraulic master cylinder

☐ **Belts**

- Inspect:

Belts
Idlers
Tensioners

☐ **Tires and Wheels**

- Inspect Tires:

For normal and unusual wear
Tread depth
Tire pressure

- Adjust tire pressure as needed

☐ **Fuel System**

- Inspect:

Fuel system components
Tank
Relevant hoses and tubing

- ☐ Coolant System – Radiator, hoses, filter (if applicable), and coolant levels
- ☐ Power Steering System – Leaks, fluid level, filters
- ☐ Compressed Air System – Leaks, proper function
- ☐ Grease/Lube – Front/rear suspension fittings, steering links, rods, etc.
- ☐ Drive Train – Condition of all components
- ☐ Transmission – Check oil level, condition, and leaks
- ☐ Exhaust – Check for loose hangers and leaks
- ☐ Electrical System – Inspect battery, fusebox, alternator

Inspect and Fill

- ☐ Windshield Washer Fluid – Inspect for leaks and refill
- ☐ Diesel Exhaust Fluid – Check DEF level and refill

Change

- ☐ Engine Oil – Drain and replace oil and oil filter
- ☐ Engine Air System Filters – Replace primary and secondary filters (if applicable)
- ☐ Fuel System – Replace fuel filter, clean fuel strainer, replace separator filter
- ☐ Air System – Replace compressor air filter (if applicable)
- ☐ Transmission – Replace external filter
- ☐ Windshield Wipers – Replace if worn

All-Inclusive Full PM \$1,099 per unit

(Includes 1-month notification when next annual PM is due)

☐ **Possible Add-Ons:**

Front & Rear Axle Laser Alignment – \$199.00

DOT Inspection – \$40.00
