THE WINDY HOLLOW STORY

Just 101 years ago, twins Hal and Tom Miller were born in Owensboro, KY. The Miller family moved to the hills of Windy Hollow in the late 1920's where the twins spent much of their youth. The Miller family was T.P. and Pansy Miller, sons, John W., Bob, Hal and Tom, and their sister, Lone.

The kids rode horses, cleaned stalls, and played at their father's coal mine around the area. In the 1930's, they also spent time at Miller's Lake that their father built which was later was operated by their little sister, Lone Miller Jones, and her family.

The twins dropped out of high school to join the Army so they could serve together. When they returned to Owensboro after the war, finishing high school was top priority. They then took advantage of the GI Bill to go to the University of New Mexico before coming home for good.

Starting in the early 1960s, Tom started his work to develop Windy Hollow into a tourist area. Tom and his wife Nancy (sons Mike Ford and TP, III) built the campgrounds and restaurant while Hal and his wife Deanna and their daughters (Karen, Kathryn and Evelyn) operated the country store, museum, jamboree and racetracks.

At Windy Hollow visitors could camp, swim, fish, race, play putt-putt, visit the museum, see music shows, ride horses, hike, and so much more!

When Tom passed away in 1974, Hal ran the campground for 4 years and the restaurant for 40 years! When the restaurant burned in 2006, he reopened on Highway 81 when he was 83. He operated it until his passing in 2014. Deanna stayed on until 2017. She passed away in 2020.

Evelyn "Rooster" Miller, and her daughter Hallie McCarty, still operate the restaurant on Highway 81. They also opened Windy Hollow Biscuit House in May 2022.

Fun Fact: American Pickers visited Hal's museum in 2016. The episode is called "Slim Pickings".
