

## Woodmore Towne Centre HOA Committee Membership Questionnaire

Thank you for your interest in joining one of WTC HOA Committees – it is most welcome and appreciated! This brief questionnaire is designed to engage your level of interest in participating on one of WTC’s Committees, in an effort to ensure we operate as productively as possible. To that end, your responses to these questions will help both you and the HOA Board determine the best use of your time and talents toward improving the quality of life for WTC residents and the surrounding area.

### Context

- In accordance with the HOA’s Committee Charter, the Committees Primary responsibly is to identify, implement, and monitor effective means of communication that will advance the objectives of the Association. Thus, the Associations Committee is largely a vehicle for widening the levels of communication to assist the Board of Directors with communication efforts to strengthen dialogue/discussion with its residents.
- The Associations Committees do not choose which solutions to implement; rather, the Board does so after considering a slate of options the Associations Committee suggests for Board consideration and input, community feedback, and data sources. Each Committee also does not implement the solutions chosen; this would follow Board direction and guidance.
- To leverage the wide range of expertise available at WTC, each Committee will make recommendations as needed to the Board of Directors that suit the best interest of the WTC community overall. Residents of the community who are interested in serving on a committee should feel comfortable with volunteering their time, talents, and efforts with dedication to service at WTC in a hands-on satisfactory manner. It is WTC’s goal to be impactful on resolving issues under consideration while maintaining a strong line of communication with its residents. If this sounds like something that you are interested in, please feel free to share how you can lend your skillset to WTC in service. Thank you and please see below!
