County Line Kennels Puppy Health Guarantee

Comprehensive Health Assurance for Your New Companion

Welcoming a puppy into your home is a joyful experience filled with anticipation, companionship, and hope for many years together. At County Line Kennels Mini Dachs, our mission is to ensure that every puppy we place embarks on a journey of health and happiness from the very beginning. Our health guarantee has been carefully crafted to give you peace of mind, protect your new family member, and uphold the highest standards of ethical breeding and animal welfare.

Our Commitment to the Well-Being of Your Puppy

County Line Kennels is dedicated to the health and welfare of every puppy in our care. We adhere to rigorous standards in breeding, nutrition, and veterinary oversight to ensure each puppy is healthy, well-adjusted, and ready to thrive in a loving home. Our health guarantee reflects this commitment and provides clear protections and guidance for new owners.

Health Guarantee Overview

Upon purchase, every puppy from County Line Kennels Mini Dachs is covered by a comprehensive health guarantee. This guarantee provides assurance against congenital and hereditary health issues, as well as protection from infectious diseases during the initial transition period. We encourage all new puppy owners to thoroughly read and understand the terms and conditions outlined below.

Veterinary Health Certification

Initial health examination: Before leaving our care, each puppy receives a thorough health examination by a licensed veterinarian. This exam includes checks for congenital defects, assessment of physical development, and evaluation for signs of illness.

Vaccinations and deworming: Puppies are up-to-date on age-appropriate vaccinations and deworming treatments. You will be provided with a complete record of veterinary care, including vaccine dates, types, and lot numbers, as well as information regarding deworming protocols.

Documentation: At the time of adoption, you will receive a health certificate stating the puppy's current health status, signed by a licensed veterinarian.

Coverage of Congenital and Hereditary Conditions

Guarantee period: County Line Kennels Mini Dachs guarantees your puppy to be free from life-threatening congenital or hereditary health defects for a period of 72 hours from the date of purchase.

Definition: Congenital and hereditary conditions refer to medical issues present at birth or inherited genetically, such as severe heart defects, debilitating joint or bone disorders, or other chronic health concerns that significantly affect quality of life.

Remedies: Should a licensed veterinarian diagnose your puppy with a covered life-threatening congenital or hereditary defect within the guarantee period, we will work with you to find a suitable remedy. This may include replacement of the puppy with one of equal value, or other mutually agreed upon solutions.

Protection Against Infectious Diseases

Transition period: We guarantee your puppy to be free from parvovirus, distemper, and canine influenza for a period of 14 days from the date of adoption.

Actions to take: If your puppy exhibits symptoms of a covered infectious disease during the transition period, please seek veterinary care immediately and notify County Line Kennels Mini Dachs within 48 hours of diagnosis.

Required documentation: A written diagnosis from a licensed veterinarian, including relevant test results and treatment recommendations, must be provided for coverage to apply.

Exclusions and Conditions

- Routine illnesses such as mild diarrhea, ear infections, or minor respiratory symptoms are not covered if they are treatable and do not threaten the life or long-term well-being of the puppy.
- Injuries, illnesses, or health deterioration caused by neglect, abuse, accidents, or failure to obtain timely veterinary care are not covered.
- Coverage is void if the puppy is transferred to a new owner, or if the puppy is used for breeding purposes before one year of age.
- This guarantee does not cover expenses for routine veterinary care, vaccinations, worming, flea/tick treatments, or preventive medications.
- Any claim under this guarantee must be accompanied by veterinary documentation, and County Line Kennels Mini Dachs reserves the right to request a second opinion from a veterinarian of our choosing.

Owner Responsibilities

To maintain the health guarantee, we ask that you adhere to the following guidelines:

- Schedule a wellness check with your veterinarian within 72 hours of receiving your puppy.
- Maintain regular veterinary care, including vaccinations, parasite prevention, and annual check-ups.
- Provide a nutritious diet, safe environment, and appropriate exercise for your puppy's breed and age.
- Contact County Line Kennels Mini Dachs promptly regarding any health concerns that may be covered by this guarantee.
- **Retain all veterinary paperwork and documentation, as these may be required for verification and processing of claims.**

Making a Claim

If you need to make a claim under our health guarantee, please follow these steps:

- Contact County Line Kennels Mini Dachs within 48 hours of discovering a health issue that may be covered by the guarantee.
- Provide a written veterinary diagnosis, including all relevant test results and treatment recommendations.
- Allow County Line Kennels Mini Dachs to review the case, and if necessary, obtain a second opinion from an independent licensed veterinarian.
- Work cooperatively with County Line Kennels Mini Dachs to determine the appropriate remedy, which may include replacement, or other solutions as described above.

Additional Support and Resources

County Line Kennels Mini Dachs is committed to assisting new puppy owners beyond the scope of our health guarantee. We provide ongoing guidance, resources for nutrition and behavior, and recommendations for local veterinary services. Should you have questions about your puppy's health, adjustment, or care, our team is available to support you every step of the way. One of the ways we choose to maintain our breeding stock and especially our females, is the wonderful product of NuVet Plus. We have included the link to order your tub today to continue the health of your puppy. They will have been on NuVet Plus for two (2) weeks before coming home with you. Order your tub today so you have it available for them when you bring them home.

Ethical Breeding and Transparency

We believe in open communication and ethical breeding practices. Our breeding dogs undergo regular health screenings and genetic testing to reduce the risk of inherited diseases. We welcome your questions and are happy to share health information about your puppy's parents and lineage.

Conclusion

County Line Kennels Mini Dachs stand behind every puppy we place and strives to give you confidence in your adoption. Our health guarantee is designed to protect both your investment and your puppy, ensuring a healthy start and providing support as your puppy grows. By following the recommended guidelines and maintaining open communication, together we can foster a lasting bond and a joyful future for your new companion.

Thank you for choosing County Line Kennels Mini Dachs. We look forward to being a trusted partner in your puppy's life and well-being.
