County Line Kennels Mini Dachs

Adoption agreement ~

The following are obligations and terms agreed upon by both County Line Kennels Mini Dachs [Joyce Vaughn] and the customer for the sales transaction of a puppy from County Line Kennels Mini Dachs. A copy of this agreement/invoice will be sent via text and/or email when the deposit is made to secure ownership of a selected puppy.

As payment for puppy, customer agrees to pay County Line Kennels Mini Dachs [Joyce Vaughn] the purchase price of selected puppy. A *non-refundable deposit* of \$200 is required upfront to reserve the selected puppy and final payment is due in full before the customer takes possession of the selected puppy. *However, if a deposit is made prior to delivery, the deposit may be refunded should the puppy expire during delivery.* Deposits can be made by Venmo (plus the seller transaction fee), CASH APP (plus the seller transaction fee), or CASH. At the time of pick up, CASH will be required to pay the full balance owed to take home your selected puppy. There is a seventy-two-hour health guarantee with your selected puppy. Should health problems arise inside the seventy-two-hour window, contact the breeder, and return the puppy. You will be given credit to choose from future litters.

Deposits – will only reserve your selected puppy for 14 days after puppies are deemed ready to separate from the mother, unless other arrangements are made. If you change your mind on your selected puppy and choose another unsold puppy, your deposit can transfer to your newly selected puppy. In the event your selected puppy does not work out in his/her forever home, you may surrender your puppy back to County Line Kennels per the “return to breeder agreement”. NO REFUNDS will be given in the event of surrender. *Each case will be evaluated separately to determine the eligibility for a refund.*

When you pick up your selected puppy, you will take home a puppy gift bag with puppy food samples of the food they started eating first, pee pee pads, dog toys, & a blanket (that has his/her siblings and mother's scent), and an informational page with instructions on how to register your new puppy, plus how to login CKC website to view all of your puppy information that you will need to begin life with your new best friend. We spend a lot of time socializing and training our puppies and they will want to be with you most of the time! For the best bonding possible, you will want to spend as much time as you can to begin your relationship with your new puppy, learning to communicate with them and learning their likes and dislikes. Please do not hesitate to contact us if you have any questions or just need advice for your new puppy. We also have contacts with a local company that provides obedience training for you and your puppy. PLEASE ASK!

Thank you for your business!

Joyce Vaughn

Health Guarantee for your puppy ~

Initial Health Exam: BUYER has three business days from the time the puppy leaves the custody of the BREEDER to have the puppy examine by a licensed veterinarian of his/her choice at the BUYERS expense to verify the general health of the puppy. The BUYER may return this puppy to the BREEDER to receive a replacement puppy if this puppy is found to have a life-threatening illness. This does not include minor illnesses requiring short-term medication. Proof of the examination and diagnosis must be provided to the BREEDER within the three-day period in order to receive any exchange of a puppy. The BREEDER reserves the right to a second opinion from our veterinarian. The BREEDER should be contacted immediately with the name and number of the veterinarian responsible for performing the exam. The veterinarian will also need to provide in writing all the results and a diagnosis. The BREEDER is not liable for any accident or injury to the puppy once the puppy leaves the BREEDER's property. The warranty does not cover viral illnesses such as Parvovirus, parasites, infections, improper bites, hernias, undescended testicles, giardia, and coccidiosis, in which all puppies have been vaccinated for. It does not cover illnesses due to the ingestion of foreign objects, food chemicals, stress-related issues or physical injury. If a replacement puppy is not available, the BREEDER will place the BUYER first on the waitlist for a puppy of equal value. Every puppy leaving County Line Kennels Mini Dachs has been given their first series of three, six-weeks vaccinations (Distemper, Adenovirus, Hepatitis, Parainfluenza, and Parvovirus). The BREEDER also ensures that the puppy has been given Pyrantel Pamoate for the deworming process starting at two-weeks of age, administered each two weeks through eight-weeks of age. The BUYER has also been instructed to continue the deworming process through twelve-weeks of age and then follow your veterinarian advice for your adult dog once your puppy has reached adult age. ****County Line Kennels Mini Dachs does not guarantee size, color or exact details of future growth and development of your new puppy.**

You are highly encouraged to purchase and administer daily to your puppy the NuVet Plus for perfect health and the NuVet Joint Plus for strong bones and back. It comes in powder form or tablet form. It is not sold by Amazon, CHEWY or PET SMART or any other random pet store. You can only order online, so you will need to order early to have it available to your puppy for his/her health. I used the NuVet Joints PLUS product for my Mini Dachshunds backs (because of their body structure) to ensure that I will never have to say an early goodbye to one of my furry family members due to IVDD which can cause serious pain that can be prolonged duration and may lead to severe damage to the spine and even paralysis. We need their bones to be strong and healthy and NuVet ensures that our puppies and adult dogs will be healthy and live with us for a long time! Please order yours today so that you will have it available once you pick up your puppy! They will love you so much for taking the time to love them enough to protect their health!
