Dear Commissioner,

I write you today, to implore your action in defending the freedoms of Collier County workers who face being fired for not taking the so-called Covid-19 vaccine or for not wearing a mask.

As a representative of the people, you have multiple ways to address this divisive issue. You could pass a resolution stating that all workers should be able to make their own health decisions without being fired for such decision. You could publicly speak out against the policies of non-profit groups like David Lawrence Center or NCH, and speak for the freedom of choice for workers in Collier County. You could reach out to the Sheriff who sits on the board of David Lawrence Center, and ask him to stand up for bodily autonomy and freedom of choice.

If you do not make a stand against the divisive, destructive policies of these non-profits which Collier County clearly does business with, then you are just as guilty as they are for disrupting the effectiveness of these institutions and the livelihoods of people employed by these institutions.

Make a Stand Commissioner.  
We The People have had enough.
