Building Profits  
Through Safety, Efficiency and Engagement

## Protect Your Team

Band with the industry's safest strapping.

## Protect Your Product

Use the strapping system that will safely transport material without damage across 50 yards or 50 states.

## Proactively Manage Inventory

Never run out of strapping again by using our predictive order program!

## Profit with Custom Programs

The ProPack Program streamlines your order process, saves warehouse space, ships flat, and delivers the right quantity of strap and buckles!

## ProPacks

### ProPack contains:

- 16 Coils of Strap (1640' per coil)
- 3 Boxes of Buckles (3,000 buckles)

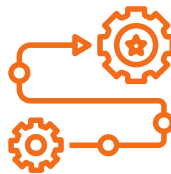

## The ProPack is redefining yard performance!

## Take advantage of the MasterPack!

- Open one pallet at a time, as needed.
- Station a ProPack at strategic points in your yard to minimize travel to banding stations.
- Mix and match strap strengths on different ProPacks while taking advantage of shipping rates with the MasterPack.

### Streamline Your Order Process

Strapping, and buckles all on one pallet in the right quantities for your yard.

**Never run out of strapping!**

### Save Space in Your Warehouse

Pallets ship flat and are stackable. Choose 1 ProPack or a MasterPack that can be easily unbanded for use one at a time!

### Control Costs

Save money buying strapping and buckles together and reduce freight costs with a flat pallet.

### Improve Safety in Your Yard

BOSS's strapping engineered with safety in mind and uses a specific weaving process to attain the safest strap in the industry.
