

**GAMEKAST**  
*LIVE*

***MORE*** **THAN JUST A GAME.**

# OUR STORY

When the Covid-19 pandemic hit, fans were banned from attending games and seasons were canceled around the country.

Friends, family and coaches were unable to attend games leaving players without their support systems cheering them on. This was just unacceptable to us.

We "adjusted our sails" determined to find a solution and, thus, GameKast.Live was created.

# OUR MISSION

**Connect friends, family and coaches with the game experience — from anywhere in the world — so they never miss a play.**

We take great pride in creating a state-of-the-art, high definition, portable, sport-streaming experience to connect friends, family and coaches to the players they love and the games they can't miss.

When you are not able to be there in-person, we bring the game to you. We make it **EASY** for friends, family and coaches to connect to a game, catch every play and relive every moment again and again – from anywhere in the world.

Connecting families is in our DNA.

# HOW WE DO IT

Our portable streaming boxes – SB1, SB2, and the newest addition SB3 – gives you the power to broadcast any event live in high definition.

Our step-by-step guide walks you through the process.

Our boxes connect right to netting or fencing. No additional construction required. The streambox portability is a selling point as you can move locations easily. However, they can be mounted permanently as they are weather and waterproof.

We continue to connect and build a growing network of streaming events to bring friends, family and coaches the live game experience in high definition from any device, anywhere in the world. Come be a part of our growing sports family.
