

INVITED EDUCATORS RECEIVE:

- ❖ \$125 Daily Institute Stipend
- ❖ Learning Materials & Recipes
- ❖ Classroom Project Funds SY25-26

Kids Feeding Kids partners with high schools to fund connected RWL projects & FCCLA projects. Students earn community service hours while learning the root causes of food insecurity and preventing food waste, and using industry skills to cook nutritious meals for families in their community. To learn more, visit kidsfeedingkids.org or watch this video of what teachers experienced at the [2024 Summer Institutes](#). Apply [\[here\]](#).

Kids Feeding Kids believes teachers and students are agents of social change and community leadership. Let's. Do. This. Together!

• [Council Grove, KS](#)

July 29 - July 31

• [Troy, IL](#)

Click each site for helpful travel details.

About the 2025 Kids Feeding Kids Summer Educator Institute (SEI):

The KFKids SEI will train and equip high school FACS educators teaching foods-related classes or educators of culinary arts technical classes with the training, materials, and funding to complete two (2) KFKids projects in their individual classrooms during the 25-26 SY.

Educators invited to attend the SEI will join a cohort of up to 12 educators at one of the regional SEI locations. This experience is designed as a unique opportunity for educator professional development.

As an invited SEI participant you will:

- examine your understanding of food insecurity and practice leading informed instruction about its root causes,
- examine your knowledge of food waste and best practices for safely donating nourishing food,
- share teaching expertise and ideas for skills-based activities for use throughout the school year,
- participate daily in discussion and hands-on cooking labs that will give you the confidence to independently complete KFKids lessons with your students,
- develop a written plan to align a KFKids project into your 2025-2026 unit plans

SEI educators who have fulfilled all expectations of SEI participation:

- will receive a daily stipend of \$125 per day for the investment of their time (max total: \$375)
- will receive a funding commitment from KFKids for two classroom projects in 25-26 SY
- may be called upon to share their expertise through activities that might include conference presentations, participation in professional networking groups, or media interviews
- will have demonstrated their role as an innovative, educational leader

Complete your [application](#) before March 14, 2025 to be considered for this invitational opportunity.

(PLEASE NOTE: Although we provide information about area lodging we do not pay travel expenses. The information is intended only to help applicants determine geography of each location.)

More About Kids Feeding Kids:

Kids Feeding Kids partners with schools to fund real-world learning projects. Students earn community service hours while learning about root causes of food insecurity, preventing food waste, and preparing nutritious meals for families in their community. For more information about Kids Feeding Kids, review our [2024 Impact Report](#) or visit our website kidsfeedingkids.org for photos and videos about our work in schools and the communities we serve.
