A Complete Guide for Beginners

Agro Export Business Training Program

Overview

Turn agricultural products into international income. Learn the exact, step-by-step process to identify profitable products, find real buyers, handle documentation, and ship confidently — even if you are starting with zero export experience.

What you will achieve

- Understand the complete agro-export value chain and key stakeholders.
- Identify profitable products and the right target markets for them.
- Prepare and manage essential export documents correctly, with real samples.
- Meet basic quality, packaging, and regulatory requirements with confidence.
- Use ready-to-apply templates, checklists, and sample documents.
- Connect with a supportive community and ongoing resources after class.
- Register and list your Product for Export.

Who is this program for?

This program is for you if you are…

- A beginner with little or no export experience.
- A farmer or agribusiness owner ready to sell beyond local markets.
- An entrepreneur seeking practical, actionable export training.
- A student or professional exploring international trade.
- Anyone who wants structured guidance and real document samples.

REGISTER NOW

Inside the program

14 Video Lessons + Worksheets. From your first product idea to shipping and overcoming challenges — plus a bonus lesson on quality standards.

Templates & Document Samples. Real samples of key export documents, checklists, and templates — ready to use.

Articles & Ebooks. Some curated articles and complementary Ebooks to deepen your knowledge at your own pace.

Community & Certificate. A WhatsApp Q&A and support community, live group review calls, and a downloadable Certificate of Completion.

Ready to start your agro-export journey?

Follow the lessons in sequence, apply every worksheet, and go from complete beginner to confident exporter — with a community behind you every step of the way.
