All in Favor

Mike Wyant initiated a discussion on potential grants for salt shed. Town is seeking an 8,000-ton capacity building. Approximate cost \$750,000. Since our creek is the head waters for Mohawk Valley, Chesapeake Bay and Susquehanna we may be entitled to other grants.

Otsego 2000 discussed their desire to have the Town preserve our rural landscape. Wanted to know the status of the Terra-Gen Project. The board explained that we have had no presentation on the project. We informed them of our numerous laws that were implemented on battery storage, wind and solar.

Mike Wyant encouraged the board to enter into an agreement with CSC (Climate Smart Community) They will help us with the grants by doing "free" leg work. The board tabled this until they have more information from other towns.

Father Harding presented the board with an agreement form the American Land Reserve Fund. This is for state level issues not federal. They are an agency who would perform legal action at no cost to the town. The board tabled this until more information is gathered.
