Hot Rolled Steel Plate	
Standard	IS9001-2008/ISO630 ASTM.DIN.JIS.GB.EN.ETC
Material Grade	Q235B Q355B A36 A572 JR50
Thick	1.0-25mm
Width	900-2000mm
Length	2-12 meters in any length

## **Main Processes**

Tangshan Hengnuotaiye Import & Export Trading Co., Ltd. has advanced hot-rolled coil processing equipment. The main processes include:

### **1 Leveling Process:**

The HR SHEET (Leveling Process) production line processes a wide range of specifications, with thicknesses from 1.0 to 25mm, widths from 900 to 2000mm, and lengths ranging from 1 to 12 meters.

### **2 HRC Slitting:**

The slitting equipment has both slitting and cross-cutting functions. It can slit a 1500mm width coil into 10 strips, with a strip width of 150mm.

### **3 HRC Splitting:**

The HRC Splitting function allows one coil to be divided into two coils. The Splitting thickness ranges from 1.2 to 12mm, with an inner diameter of 760/610/508mm.

## **Production Capacity**

As a premier steel exporter with a global footprint, we specialize in delivering high-quality steel products to over 30 countries across the Middle East, South America, Africa, and Southeast Asia. With an annual export volume exceeding 1.8 million metric tons, we have established ourselves as a trusted partner in international steel trade.

# CORPORATE VISION

**CRAFTING QUALITY,  
BUILDING TRUST.**

We adhere to the principle of "quality first, customer first" and constantly pursue technological innovation and quality improvement. Tangshan Hengnuotaiye Import & Export Trading Co., Ltd. is committed to becoming a leader in the industry and promoting the sustainable development of the steel industry. Our company has established long-term, stable, and win-win cooperative relationships with large steel enterprises such as Tianjin Steel, Hebei Steel, Tangshan Tianzhu Steel, and Tangshan Steel!

Welcome friends from all walks of life to visit our company for business negotiations and create a beautiful future together!
