

## *Beyond the Walk Courses*

### **Daycare & Boarding Selection Guide**

The daycare and boarding industry can be one of the most difficult industries to navigate. Beyond the Walk has designed this guide to help dog owners make the best choice for their dog's care. This guide is organized by category with a table of contents for easy reference. Elements of this guide go into great detail regarding how some objectives of safe, quality care can be achieved. Informing dog owners with such details can help owners identify when a component of a daycare or boarding service is a typical limitation, reasonable expectations, or cause for concern. While some readers may feel most interested in select sections of this guide, the full content of this guide illustrates the connection between multiple facets. Dog care professionals may also find this guide useful and provide insight for the elements important to dog owners.
