

America became great because of our freedoms. We have a civic responsibility to preserve them.

Encourage open government and active citizen participation.

The Alliance Party recognizes the duty of the government to coordinate with private enterprise to enact a comprehensive Green Initiative to reverse current trends and create 10 million new public and private industry green jobs.

Sustainability and Resilience

- ◆ Invest in future infrastructure starting with Modern Cross-Country High Speed MagLev.
- ◆ Invest in national lead pipe replacement and infrastructure upgrades to guarantee access to safe and affordable drinking water.
- ◆ Promote local and community organic farming and phase out large agribusiness subsidies.

Man-made changes in our climate have created a threat to the security and prosperity of every nation.

Transform to a Low-Carbon Economy

- ◆ Transition away from harmful energy production practices and invest in clean and renewable energy sources.
- ◆ Increase government standards on vehicle emissions and building energy use standards.

More than any single issue, the health of the planet will have more direct impact on our lives and livelihoods in the US & beyond.

Protect Our Natural Resources

- ◆ Enhance national standards for clean air and water.
- ◆ Invest in applied research to rid our oceans and waterways of plastics and toxins, and technologies to extract carbon dioxide and methane from our atmosphere.
- ◆ Expand, Reforest and Restore millions of acres of public and recreational land and waters.
- ◆ Support sustainable agricultural, soil management, and fishing practices.

Make Democracy Representative

- ◆ Enact Term Limits on legislators.
- ◆ End Partisan Gerrymandering.
- ◆ Implement Ranked Choice / Instant Runoff Voting for all elections.
- ◆ Equal access for citizen lobbying.

Demand a New Breed of Public Servant

Eliminate Barriers to Participation in Democratic Processes

We the People have lost representation due to continuously higher barriers erected against non-traditional candidates who want to run for public office.

Our manner of legislating has been hijacked by special interest dominance. They ensure members vote to legalize the corruption as investing millions yields billions in favorable legislation in return.

Further, our elected officials choose their voters through partisan gerrymandering, which leaves them safe to ignore the will of their constituents in favor of corporate donors and private money.

- ◆ Allow for same-day voter registration for all current unregistered voters and implement automatic voter-registration.
- ◆ Expand the use of early in-person voting.
- ◆ Overturn Citizens United and reform campaign finance laws to increase transparency and limit the influence of special interests and private money.
- ◆ Ban legislators from becoming lobbyists for 5 years after leaving office.
