## *IN THIS ISSUE*

**Locally Employed  
Blue Bus Ministry  
Youth Worker  
Programs**

Our Locally Employed program continues to expose our students to the working world. We are excited to be able to partner with local business in this regard and would like to thank Millwick's Cafe and Prince of Tarts for their ongoing support!

Grace Place Ministries from USA, came to visit us for an outreach in April. The team ministered to our students and then got to expose them to street evangelism - what an experience it was!

Over the March holiday Sabrina went to visit Blue Bus Ministries in Cape Town. It was an opportunity to network for Local Motion and also gain insight in how another thriving organisation is working with teenagers in South Africa. We have learnt a lot from Blue Bus Ministries and how they work within the schools in the greater Delft Community.

From this project we have made the decision to focus on students who are motivated and disciplined in their school work and are actively working to achieve above 50% aggregate.

Blue Bus Ministries has seen that students who are committed and motivated to achieve their goals in life, will bring change in their own community and are actively growing to be inspiring leaders.

Developing Leaders! It has been encouraging to see the growth of students within the program and how their leadership skills are shining through. Kuhle (Matric 2022) helped us with facilitating surf lessons in Term 1 and Justin is a natural in assisting to teach other students how to swim!

This term we could celebrate Kuhle being baptised!

We are excited to welcome a new youth worker, Charlot Kerba! We are also very privileged to have Anelma, Tanya and Bernitia with us as volunteers for our weekly program!

## Study sessions

During exams the program shifts to afternoon study sessions and the centre is available to help learners with their academics and keep them focused. Our next step is to acquire a few laptops and further sponsors for The Master Math program to assist these learners with maths!

We will be focusing further on literacy in the coming terms and would welcome any donation of academic material - Books, Stationary, Desks, Chairs and Laptops.

## **Our Needs**

As the program continues to develop, the financial demands become increasingly more evident. The need to be sustainable in these challenging times is obvious and we would welcome the opportunity to partner with likeminded individuals or businesses in this regard.

There are a multitude of needs for our growing organisation, if you are able to assist in any of these we would appreciate it greatly.

**Financial Assistance**

**Food and clothing donations**

**Academic material (books, stationary etc)**

**Counselling support**

**Mentorship of students**
