VIRTUAL RECERTIFICATION SERVICE

AMAL PETRO
EQUIPMENT

Our Virtual Recertification services offer advanced remote inspection, testing, and certification of critical oil and gas drilling equipment from Approved API Companies.

Utilizing cutting-edge diagnostics and real-time monitoring, we ensure that equipment such as BOP control systems, well control equipment, drill string components, mud pumps, and wellhead systems meet industry standards without the need for on-site inspections.

This digital solution reduces downtime and enhances operational efficiency, providing seamless, remote compliance for your equipment.

1. Inspection and Testing of BOP Control Systems
2. Pressure Testing of Well Control Equipment
3. Certification and Recertification of Drill String Components.
4. Function Testing of Annular BOPs and Ram BOPs
5. Recertification of Mud Pumps and Manifold Systems
6. Verification of Wellhead and Christmas Tree Components
