Dear Fellow Educator,

November 2023

I hope this letter finds you well and filled with enthusiasm for the incredible work you do in the education world. My name is Aja Jackson, and I am thrilled to introduce you to MindUteach, a transformative organization dedicated to supporting educators and leaders like yourself in reaching new heights of excellence. I have spent over 20 years teaching, coaching and facilitating in a variety of educational settings. My passion and purpose centers around acknowledging how the stories that each one of us brings to our work help us to evolve as professionals and develop deeper connections to those around us, including our students. I am committed to the power of transformation that leads to measurable outcomes for individuals and organizations.

The current state of education is ever-evolving and filled with both challenges and opportunities. Educators are constantly adapting their approaches to meet the demands of a rapidly changing world. While there are still hurdles to overcome, the dedication and resilience of educators continue to shape the future of education, preparing students for success in an increasingly interconnected global society.

At MindUteach, we believe that empowering educators to enhance instructional practices that accelerate learning, foster teacher leadership skills, promoting diversity, equity, and inclusion (DEI), and providing valuable life coaching support will lead to successful school cultures. We firmly believe that "the personal is professional" and that investing in both personal growth and professional development is paramount to achieving lasting success.

Please, learn more about what we offer and set up an appointment via minduteach.org website to discuss how we can customize our services to fit your needs.

Thank you for considering MindUteach. We are excited to embark on this journey of continuous improvement, empowerment and transformation together, as we work towards a brighter future for education.

Looking Forward,

Founder, MindUteach

## Services

### *Instructional Coaching*

Tailored guidance and support to elevate your instructional practices and maximize student learning outcomes.

### *Novice Teacher Mentorship*

Empowering and guiding new teachers through personalized mentoring and constructive feedback.

### *Teacher Leadership*

Cultivating leadership skills and empowering educators to make a positive impact within their schools and communities.

### *Curriculum Development*

Collaborative curriculum design that aligns with best practices, engages students, and supports effective teaching.

### *DEI Training*

Providing comprehensive training on diversity, equity, and inclusion, with a focus on identity and belonging, to create inclusive learning environments.

### *Professional Learning*

Need to launch a cycle of continuous improvement with your team? Is there a concept, (instructional) practice, skill that will deeply engage your organization for true and authentic change? Ready to launch a Professional Learning Community? Let's GO!

### *Life Coaching*

Holistic support for educators, recognizing the interconnectedness of personal and professional well-being.
