

PUBLIC SAFETY CRISIS SOLUTIONS

Traumatic Event Services / House Bill 2502

As a TES provider, we will take care of all HIPAA related treatment and reporting information with our online consent form, which we ask all clients to fill out prior to initiating the benefit and being able to see a counselor. This consent allows for us to share some of the information required for reporting by the State.

Each month we will send an invoice with the following details:

Name of employee, date of incident, date of sessions, category of incident, and if the employee was recommended for TES/HB Leave.

Most departments can utilize their current leave/scheduling accountability databases to aggregate the other needed reporting information.

All PSCS providers will adhere to TES/HB2502 service requirements.

If a member does not go through PSCS and wishes to initiate this benefit on their own, we wouldn't have any control over that situation, unless you want us to be your Department's TES management company.

If you are wanting PSCS to manage all TES related issues and outside providers.

PSCS will ensure you receive our statistics for the below numbers 1, 2, 3, 7, 8.

Department will capture and report for 4, 5, 6, 9.

PSCS can assist with these items if provided a liaison from the department.

1. The number of people who participated in the program
2. The average number of visits per person
3. The average number of months in the program
4. The average number of days the employee missed work
5. The total number of employees who participated in the program and subsequently filed for workers' compensation
6. The number of employees approved and denied workers' compensation
7. The percentage of employees who utilized Trauma Event Services
8. The number of employees recommended to be placed on HB2502/TES Leave by a mental health professional
9. The total amount of missed work and what benefits were used to compensate the employee for missed work

Additionally, we can provide emergency assessment and management for all traumatic events regarding fit-for-duty for a monthly fee. Costs will largely depend on the size of your department.

Cost associated with services:

PSCS will be reimbursed on case by case basis, per fees set by HB2502 which is the amount of the schedule of fees fixed by the industrial commission of Arizona 23-908.

PSCS will manage all the departments TES needs, including other providers utilized by employees for an additional 20 percent on all TES services.

PSCS can provide on-call emergency assessment and management for all traumatic events regarding fit-for-duty for a monthly fee. Costs will largely depend on the size of your department.
