

## *Make Your Trip More Magical*

A Walt Disney World vacation is already filled with enchantment — fireworks that shimmer like pixie dust, music that wraps around you like a warm hug, and lands that feel straight out of a storybook. But there's a secret layer of magic many guests overlook: the accessories that transform your trip from *fun* to *wonder-filled*.

Popcorn buckets, refillable Resort mugs, MagicBand+, themed bags, and other little extras don't just look cute. They make your days smoother, your photos brighter, and your memories deeper. Think of them as your enchanted sidekicks — each with its own special power.

This guide walks you through how these accessories enhance your trip in practical, joyful, and delightfully Disney ways.

# Popcorn Buckets: The Snackable Souvenir That Sparks Joy

Popcorn buckets are one of Disney's most charming traditions — part collectible, part snack companion, part walking piece of happiness.

## *About Them and Why They Enhance Your Trip*

- **There are two different kinds of popcorn buckets and both can be refilled:**
  - **Standard Popcorn bucket:** the more practical option if you will be planning on refilling a lot, it's a good size and not too cumbersome to tote around to parks for multiple days.
  - **Specialty Character Popcorn bucket:** These are

collectables, different popcorn buckets for Festivals, Seasonal events, Holiday's and Limited time editions. I've been lucky enough to have gotten a Christmas and Halloween popcorn bucket. They are so cute, Stitch glows in the dark and the pumpkin lights up. These buckets all have some of that Disney magic to them with these types of fun details.

They are big, and some can be awkward though, you may not want to carry these around everyday.

- **Budget-friendly refills** — Discounted popcorn refills throughout your trip keep snacking easy and affordable. (Refill's are currently priced at \$2.49, except at Epcot at the Canada Popcorn Cart \$2.79 for the Maple Popcorn Refill.)
- **Perfect parade partner** — Popcorn is the ideal parade or fireworks snack, and the bucket keeps it fresh while you wait.
- **Photo magic** — Whether it's a Mickey balloon bucket or a seasonal character design, these instantly elevate your park photos.

- **A memory you can hold** — Every refill becomes a moment: sharing popcorn during fireworks, munching while strolling down Main Street, or snacking between rides. These can even make great decor in the right place and time.

*Disney Wonder Tip: If you spot a limited-edition bucket that makes your heart sparkle – grab it. The best designs disappear faster than Tinker Bell on a mission. From this pixie's own experience think about how you will get it home too though and have a plan. (My daughter's Scar popcorn bucket was quite the challenge with flying home, luckily I had bought a cute Christmas canvas tote bag as a souvenir.*

## *Disney Resort Refillable Mugs: Your Daily Dose of Cozy Magic*

Your Resort mug is more than a cup — it's a ritual. A warm, comforting moment that starts your day with a little Disney wonder even once you are home. I have mine at work with me everyday.

- **Saves money** — If you enjoy multiple drinks a day, the mug pays for itself quickly. They can be used at any Disney Resort.

*Disney Wonder Tip: Take your mug to a quiet nook – a balcony, a garden path, or a lakeside bench – and enjoy a Belle-worthy "chapter one" moment before or after the parks.*
