

all of her expenses through her Network Expense membership. Her two Estates, in essence, replace her job. Because she keeps her rebate in the Network to pay all her expenses, the IRA will not tax the \$20,000 rebate/Estate so the tax benefits are substantial. Since Anna no longer has to go to an actual “job”, she uses her time to travel, volunteer in the community and her church, play with her grandchildren, and invest her time in people.

At the end of each one-year cycle each *Estate* Member has the option of keeping their \$50,000 *Estate* (reloading) or spending their capital. As you can see from the above example, you can load more than one estate. You will select the name of each estate - your identity remains anonymous unless you name your *Estate* after your likeness. Like Anna, Estate Members can also be Expense Members and use the Abundance Economic Network to get a 10-20% copay discount to assist with their expenses.

This is how the *Estate/Equity* membership process works:

1. Join the recommended AEN credit union (Telhio if in Columbus).
2. You load \$50,000/year for an *Estate* membership. You name your Estate.
3. Optional:
 - a. If you want to build more wealth, you can load as many *Estates* as you desire.
 - b. If you want to make money through rebates, you can take advantage of the Enterprise memberships.
 - c. If you want to pay your expenses through the Network (and save money), you will want to join as an *Expense* Member.

*This *Estate* enterprise is the most profitable Network position and is a pillar of the Abundance Economic Network.
