

IGNITE CONSOLE

The TRUE IGNITE CONSOLE was designed to easily incorporate interval training into any small-group training class or facility. Exercisers can transition quickly between work and rest intervals to maximize intensity and recovery with quick-touch speed and incline keys. Created for the TRUE commercial treadmill, including a specifically-designed console for the Alpine Runner Incline Trainer, any facility can now easily provide trainers and users the ability to adapt their workouts to any type of interval regimen on the go.
