

IP3000

ON LINE THERMAL INK JET PRINTER

**A
T
D** Marking Systems

The Perfect Fit For Your Industrial Coding & Marking Requirements

Continuous Ink Jet | High Resolution Ink Jet | Thermal Ink Jet | Laser Coders

The ATD IP3000 is a robust, small character coder that delivers reliable industrial printing in one simple, high quality, integrated unit.

The ATD IP3000 is bristling with features that you would normally expect to find on much more expensive printers and comes with everything you need to get started. Configurable from 1-6 heads which enables you to achieve a print height from 1mm - 76.2mm

- Zero maintenance & ink wastage
- Prints on matt & glossy surfaces
- No mess ink cartridge
- Over 14 supported operational languages
- Time, date and sequential numbering and more
- 152.4M/min at 300DPI, 304.5M/min at 150DPI, 361M/min at 120DPI, 508M/min at 90DPI
- Instant cost per print calculation according to message size
- Built in 7" touch screen programming

Technical Summary

- 1mm - 76.2mm print height available
- 90DPI/120DPI/150DPI/300DPI
- Best print from 2-5mm
- Suitable for coding barcodes, text, logos & dates
- Will work in temperatures of 0-45 degrees
- WYSIWYG editing information for easier operation
- Porous and non porous inks
- 100-240V AC input
- Embedded Linux operating system
- Contactless chip RFID tags, automatic identification and displaying of ink levels

Prints on to non-porous products

No mess ink cartridge

Suitable for barcodes, text & images
