# Coffee & Side Tables

- Small and discreet, large and imposing, the coffee tables are essential furnishing accessories for any room in the house, office or garden. In addition to fulfilling various functions, they are furnishing elements that contribute to give a final touch that distinguishes the environment. They can be chosen in coordination with chairs and furnishing accessories to fill the space or they can contrast with them to stand out and attract attention. That's why there are so many different coffee tables in materials, shapes, sizes and colors.
