

## High Stools

Thanks to the Ancient Egypt to originate the high stools and used as a prevalent type of seat in later centuries. A stool is a complement that allows you to add seats in informal and collabora and contributes to the success of a contemporary furnishing project. The stools are an original solu furniture of the office space area with products that fit into any interior design project and are able to radically transform even the appearance of a space. A modern stool furnishes with possible models with metal and wood structures, upholsteredseats and above all lots of colour.
