CONTENTS

Key Terms

This section explains some of the terms that you will find in this document.

C

Chronic Disease List (CDL)

This is a defined list of chronic conditions that we cover according to the Prescribed Minimum Benefits.

Chronic Drug Amount (CDA)

The Chronic Drug Amount is the monthly amount that we pay up to for a medicine class. This amount is subject to a member's plan type. It applies to chronic medicine that is not listed on the medicine list (formulary).

Chronic Illness Benefit (CIB)

The Chronic Illness Benefit covers medicine and treatment for a defined list of chronic conditions. You need to apply for the cover first.

Comprehensive cover

This cover exceeds the essential healthcare services and Prescribed Minimum Benefits that are prescribed by the Medical Schemes Act 131 of 1998. Comprehensive cover offers you extra cover and benefits to complement your basic cover. It gives you the flexibility to choose your healthcare options and service providers. Whether you choose full cover or options outside of full cover, we give you the freedom to decide what suits your needs. Our cover is in line with defined clinical best practices. This ensures that you receive treatment that is expected for your condition and that is clinically appropriate.

We may review these principles from time to time to stay current with changes in the healthcare landscape. While comprehensive, your cover remains subject to the Scheme's treatment guidelines, protocols and designated service providers. We still prioritise managed care to make sure you get the best outcomes for your health.

D

Designated service provider (DSP)

This refers to a healthcare professional or provider (for example a doctor, specialist, allied healthcare professional, pharmacy or hospital) who/that has agreed to provide Discovery Health Medical Scheme members with treatment or services at a contracted rate. To view the full list of designated service providers, visit www.discovery.co.za, or click on 'Find a healthcare provider' on the Discovery Health app.

Co-payment

This is an amount that you have to pay towards a healthcare service. The amount can vary, depending on the type of healthcare service, the place of service and whether the amount that the service provider charges is higher than the rate that we cover. If the co-payment amount is higher than the amount charged for the healthcare service, you will have to pay for the cost of the healthcare service.

Cover

Refers to the benefits that you can access on your health plan and how we pay for these healthcare services. The services may include consultations, medicine and hospital visits.

D

Discovery Health Rate (DHR)

This is the rate that we pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant healthcare services.

Discovery Health Rate for medicine

This is the rate that we pay for medicine. It is the Single Exit Price of medicine plus the relevant dispensing fee.

Discovery HomeCare

Discovery HomeCare is an extra service that offers you quality care in the comfort of your home. You can use this for healthcare services like intravenous (IV) infusions (drips), wound care, postnatal care and advanced illness care.

E

Efficiency discount arrangement

An option where members on the Delta Core plans benefit from a lower contribution in exchange for limiting their access to a restricted network.

Emergency medical condition

This is an emergency medical condition may be referred to, simply, as an emergency. It is the sudden and, at the time, unexpected onset of a health condition that requires immediate medical and surgical treatment. Failure to give this medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or it would place the person's life in serious jeopardy.

An emergency does not necessarily need you to be admitted to a hospital and you may be treated in casualty only. We may ask you for more information to confirm the emergency.

F

Find a healthcare provider

'Find a healthcare provider' is a medical provider search tool that is available on the Discovery Health app and website www.discovery.co.za.

H

HealthID

Discovery HealthID is an online digital platform that gives your doctor fast, up-to-date access to your health information. Once you have given consent, your doctor can use HealthID to access your medical history, refer you to other healthcare professionals and check your relevant test results.

M

Medicine list (formulary)

This is a list of medicine that we cover in full. You can use the medicine to treat approved chronic conditions. This list is also known as a formulary.

N

Networks

Depending on your chosen plan, you may need to use specific hospitals, doctors, specialists or allied healthcare professionals in a network. We have payment arrangements with these providers to make sure you can access quality care that is affordable. When you use a network provider, you avoid having to pay extra costs and co-payments.

Home-based hospital network

On the Delta Plans, you have full cover for carefully selected low-acuity conditions if you use a designated service provider in the Home-based hospital network.

Hospital networks

If you have chosen a plan with a hospital network, make sure you use a hospital in that network to get full cover.

Doctor networks

We cover you in full for GPs, specialists and allied healthcare professionals who we have a payment arrangement with.

Medicine networks

Personal Health Pathways

- An emergency medical condition
- A defined list of 271 diagnoses
- A defined list of 27 chronic conditions.

The Council for Medical Schemes has set the following rules for how to access Prescribed Minimum Benefits:

- Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions.
- The treatment that you need must be provided for in the defined benefits.
- You must use designated service providers in our network. This does not apply in emergencies. Where appropriate and in line with the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a designated service provider, we will pay up to 80% of the Discovery Health Rate. You will be responsible for the difference between what we pay and the actual cost of your treatment.

If your treatment doesn't meet the above criteria, we will pay according to your plan benefits.

Primary Care doctor

A Primary Care doctor helps you to take care of your general health. You are likely to have better health outcomes when you nominate one doctor to manage your health and coordinate your care. Your Primary Care doctor knows your complete medical history and takes the healthcare approach that is best for you.

R

Reference price

The Reference Price is the set amount that we pay for a medicine category. This applies for medicine that is not listed on the medicine list (formulary).

Related accounts

'Related accounts' refers to any account that is separate from your hospital account but related to in-hospital care that you have received. This could include the accounts for your admitting doctor, anaesthetist, and any approved healthcare expenses, like radiology or pathology.

S

Shariah-compliant arrangement

This refers to an arrangement that allows you to have your health plan managed according to principles that comply with Shariah.

U

Upfront payment

This is the amount that you must pay upfront to a hospital or day clinic if you use a facility outside of the network and for specific treatments or procedures. Your access to **Prescribed Minimum Benefits** and cover in an emergency

What are Prescribed Minimum Benefits?

According to the Prescribed Minimum Benefits, the Medical Schemes Act 131 of 1998 and its Regulations indicate that all medical schemes must cover the costs for the diagnosis, treatment and care of:

- An emergency medical condition
- A defined list of 271 diagnoses
- A defined list of 27 chronic conditions.

If your treatment doesn't meet the criteria, we will pay according to your plan benefits.

The Council for Medical Schemes (CMS) provides the following rules for accessing Prescribed Minimum Benefits:

- Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions.
- The treatment that you need must match the treatments in the defined benefits.
- You must use designated service providers in our network. This does not apply in emergencies. In an emergency, where appropriate and in line with the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a designated service provider, we will pay up to 80% of the Discovery Health Rate. You will be responsible for the difference between what we pay and the actual cost of your treatment.

What is considered a medical emergency?

An emergency medical condition may be referred to, simply, as an emergency. It is the sudden and unexpected onset of a health condition that requires immediate medical or surgical treatment. Failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or it would place the person's life in serious jeopardy. An emergency does not necessarily require you to be admitted to a hospital and may be treated in casualty. We may ask you or your treating provider for information to confirm the emergency.

What we pay for

We pay for the following medical services, which you may receive in an emergency:

- The ambulance (or other medical transport)
- Your stay at the hospital
- The services that you receive from the doctor who admitted you to the hospital
- The anaesthetist's services
- Services from any other healthcare professional or provider who/that we approve.

Assistance during or after a traumatic event

You have access to dedicated assistance during or after a traumatic incident. This can be any traumatic experience such as crime, violence or loss of a family member, including loss of a child or pregnancy. By calling the Emergency Assist number or using the 'Emergency Assist' feature on the Discovery Health app, you and your family can access trauma support 24 hours a day. This service also includes counselling and extra benefits for trauma related to gender-based violence.

Your access to care at home

Delivering hospital-level care safely and effectively in your home for many medical conditions for which you would otherwise be admitted to hospital.

Hospital at Home

Discovery Hospital at Home provides qualifying members with the option to receive hospital-level home-based care instead of being admitted to a traditional hospital or after an early discharge from hospital for continuation of care in the home.

Members receiving treatment in the home have access to enhanced benefits and services, delivered through their personalised care team of participating providers in the Home-based hospital network.

You have access to the following Home-based hospital network providers giving you access to Discovery Hospital at Home services, for home-based treatment:

- Discovery Home Health
- Mediclinic at Home
- Quoro Medical

Hospital at home is the designated service provider (DSP) for the Delta plans for home-based care for qualifying conditions such as chronic obstructive pulmonary disease, pneumonia, complicated urinary tract infection, heart failure, cellulitis, deep vein thrombosis, asthma, and diabetes.

You do not need to use this network in the event of an emergency, or if not deemed clinically appropriate for homebased care according to the treating provider.

Should you choose to not make use of this network once your treating healthcare provider has recommended it as part of your care, an upfront payment of R5,450 will apply to the admission.

If you meet the Scheme's clinical and benefit entry criteria, this gives you access to:

- Physical and virtual 24-hour care, facilitated by a dedicated care team
- A remote monitoring device that automatically transmits information to a hospital-based care team, 24 hours a day, 7 days a week
- Access to an improved range of clinical diagnostic procedures and interventions to manage medical or postsurgical hospital-level care at home.

Home Monitoring Device Benefit for essential home monitoring

The Home Monitoring Device Benefit gives you access to a range of essential and registered home monitoring devices for certain chronic and acute conditions up to a limit of R4,850 per person per year.

Discovery HomeCare

When your doctor recommends that you receive home care as an alternative to a hospital stay, Discovery HomeCare will provide you with quality care in the comfort of your home. Services include postnatal care, end-of-life care, IV infusions and wound care. We pay for these services from the Hospital Benefit. This payment is subject to approval.

Discovery HomeCare is the designated service provider for defined IV infusions. Avoid having to pay 20% out of your own pocket by using Discovery HomeCare for these infusions.

Home-based virtual care for the elderly

If you are 65 years or older and identified as being at high-risk, you may have access to a basket of care to manage your condition at home. This includes a virtual consultation with a GP or nurse as an alternative to an casualty visit as well as virtual coaching sessions to help coordinate your care.

Essential screening and prevention benefits

This benefit pays for certain tests that can detect early warning signs of serious illnesses. The tests must be carried out by our wellness providers.

What we pay for

We cover various screening tests at our wellness providers. We pay for these tests from the Screening and Prevention Benefit. You will have to pay for consultations that do not form part of the Prescribed Minimum Benefits.

Screening for kids

This benefit covers the assessment of your child's growth and development. We pay for you to have your child's weight, height, body mass index and blood pressure measured at one of our wellness providers.

Screening for adults

This benefit covers a Health Check – a simple but helpful set of basic health screenings, which we pay for every year. A Health Check is performed at the point of care, with finger-prick tests where appropriate. Some of the screenings are for BMI, blood pressure, blood glucose, cholesterol and HIV.

We also cover a mammogram or ultrasound of the breast every two years. We pay for a Pap smear once every three years or an HPV test (including self-sampling kits) once every five years as well as a mental wellbeing assessment and a prostate-specific antigen (PSA) test annually. Every two years, for members between 45 and 75 years, we pay for a bowel cancer screening test (including self-sampling kits).

Screening for seniors

In addition to screening for adults, members who are 65 years and older have cover for an age-appropriate falls-risk screening assessment. This assessment must be carried out at a pharmacy in our defined pharmacy network. We may cover you for an extra falls-risk assessment when you are referred to a Premier Plus GP. This depends on your screening test results and if you meet the Scheme's clinical entry criteria.

Additional tests

Clinical entry criteria apply to these tests:

- Defined diabetes and cholesterol screening tests
- Breast MRI or mammogram and once-off BRCA testing for breast screening
- Colonoscopy for bowel cancer screening
- Pap smear or HPV test for cervical screening.

Vaccines

Clinical entry criteria apply to these vaccines:

- A seasonal flu vaccine for healthcare professionals and members who are pregnant, 65 years or older, or registered for certain chronic conditions

The Chronic Illness Benefit (CIB) covers you for a defined list of 27 medical conditions, known as the Chronic Disease List (CDL).

What we cover

Prescribed Minimum Benefit conditions

You have access to treatment for a list of medical conditions under the Prescribed Minimum Benefits. The Prescribed Minimum Benefits cover the 27 chronic conditions on the CDL.

Our plans offer you benefits that exceed Prescribed Minimum Benefits. Certain rules apply for accessing Prescribed Minimum Benefits.

Medicine cover for the Chronic Disease List

We cover you in full for approved chronic medicine on our medicine list (formulary). For medicine that is not on our list, we cover you up to the generic Reference Price, where a generic alternative exists, up to a set monthly rand amount. This amount is called the Chronic Drug Amount (CDA).

How we pay for consultations and medicine

You must nominate a GP in the Discovery Health Network to be your Primary Care GP and manage your chronic conditions. You can change your nominated Primary Care GP up to three times a year. To find a doctor and learn more about the nomination process, use www.discovery.co.za or the Discovery Health app.

To be covered in full for your GP consultations, you must visit your nominated Primary Care network GP. If you see a GP who is not your nominated Primary Care GP or a nominated GP that is not a network GP, you will have to pay a co-payment. For more information on our Care programmes and enrolment by your Premier Plus Network GP, please refer to the last page in Section 8.

We pay up to a maximum of the Discovery Health Rate (DHR) for medicine that you buy from one of our network pharmacies. The DHR for medicine is the price of the medicine and the fee for dispensing it.

How to activate the benefit

You must apply for the CIB. Your Primary Care GP must complete the form online or send it to us for approval. Visit www.discovery.co.za to view the detailed CIB guide.

The Discovery Health app is brought to you by Discovery Health (Pty) Ltd; registration number 1997/013480/07, an authorised financial services provider and administrator of medical schemes.

Find out more about Personal Health Pathways in section 4.

Disease Prevention Programme

If you are identified as being at risk of cardiometabolic syndrome, your Premier Plus GP can enrol you on the Disease Prevention Programme. Your Premier Plus GP, dietitian and health coach will help coordinate your care. Enrolled members can access a defined basket of care, which includes cover for consultations, certain pathology tests and medicine, where appropriate. You will also have access to health coaching sessions, to help you manage your condition from day to day.

Diabetes Care Programme

If you are registered on the Chronic Illness Benefit (CIB) for diabetes, your nominated Premier Plus GP can start you on the Diabetes Care Programme. The programme unlocks cover for extra glucometer strips and consultations with dietitians and biokineticists. You may also have access to a nurse educator who can help you to manage your condition from day to day.

Enrolment unlocks cover for prescribed medicine, access to either individual or group psychotherapy sessions (virtual and face-to-face therapy), digital mental health care with internet-based cognitive behavioural therapy (ICBT), and extra GP consultations. The GP consultations help ensure that your treatment is effectively evaluated, tracked and monitored.

Additionally, members with depression may qualify to access a relapse prevention programme. This includes extra cover for a defined basket of care for psychiatry consultations, counselling sessions and care coordination services.

Cardio Care Programme

If you are registered on the CIB for hypertension, hyperlipidaemia or ischaemic heart disease, you can access a defined basket of care and a yearly cardiovascular assessment. This is only if you are referred by your nominated Premier Plus GP and if you are enrolled in the Cardio Care Programme.

Oncology Care Programme

If you are diagnosed with cancer, we give you comprehensive cover, including cover for high-cost medicine and innovative treatment. We also provide extended cover for once you reach certain limits.

Visit www.discovery.co.za to view the detailed Oncology Benefit guide.

Prescribed Minimum Benefits

Cancer treatment that is a Prescribed Minimum Benefit is always covered in full. All Prescribed Minimum Benefit treatment costs add up to the cover amount. If your treatment costs more than the cover amount, we will continue to cover your Prescribed Minimum Benefit cancer treatment in full.

Oncology Benefit

If you are diagnosed with cancer, we cover you on the Oncology Care Programme once we have approved your treatment. We pay for an approved cancer treatment over a 12-month cycle.

We cover the first R250,000. If your treatment costs more than this cover amount, we will cover for up to 80% of the Discovery Health Rate (DHR) of the subsequent treatment costs.

All cancer-related healthcare services are covered up to 100% of the DHR. You might have a co-payment if your healthcare professional charges above this rate.

On the Classic Delta Core, Essential Delta Core and Coastal Core Plans, all cancer related healthcare services are covered at a network provider.

Oncology Precision Medicine

We pay for a sub-set of precision medicine covered by the Oncology Benefit, subject to the Scheme's clinical entry criteria. You will have to pay 50% of the cost of these treatments.

How we cover medicine

To avoid a 20% co-payment, you need to get your approved oncology medicine from a designated service provider. Speak to your treating doctor to confirm that they are using our designated service providers for your medicine and for any treatment that you are receiving in a doctor's rooms or at a treatment facility. Oncology medicine is paid up to 100% of the Discovery Health Rate or up to the Oncology Reference Price, whichever is applicable.

Advanced Illness Benefit

This programme offers unlimited cover for approved care at home, care coordination, counselling services, and supportive care for appropriate end-of-life clinical and psychologist services. Hospital Benefit

The Hospital Benefit covers you if you need to be admitted to hospital.

All Core plans offer cover for hospital stays. You don't have an overall limit for your Hospital Benefit.

View all the hospitals in the Delta and Coastal Hospital Network using 'Find a healthcare provider' on the Discovery Health app.

What the benefit does

This benefit pays the costs for your stay when you are admitted into hospital.

What we cover

We give you unlimited cover for stays in any private hospitals that are approved by the Scheme, subject to the network requirements on the Delta options and Coastal plan.

Your doctor may recommend home-based care as part of your treatment. You will need to make use of our Home-based hospital network which is the designated service provider (DSP) for home-based care. If you choose not to make use of the DSP, you will need to pay R5,450 upfront for your admission.

How to access the benefit

Getting confirmation first

Contact us to confirm your hospital stay before you are admitted. This is known as preauthorisation.

Where to go

If you are on a Delta option or Coastal Core Plan, you need to use a hospital in the network for your plan. If you are on all other plans, you can go to any private hospital that is approved for payment by the Scheme. Payment for healthcare services at newly licensed facilities is subject to approval by the Scheme. View the hospital networks on our website, www.discovery.co.za.

What we pay

We pay for planned hospital stays from your Hospital Benefit. Specifically, we pay for your medicine in hospital, the hospital stay itself, and the services that you receive from all healthcare professionals who provide you with care and treatment. Payment is subject to the Scheme authorising hospital stay.

If you use doctors, specialists and other healthcare professionals who we have a payment arrangement with, we will pay for their services in full. We pay up to 200% of the Discovery Health Rate on Classic plans, and up to 100% of the DHR for Essential and Coastal plans for other healthcare professionals.

You can avoid co-payments by:

- Using healthcare professionals who we have a payment arrangement with
- Going to a hospital in the network of hospitals for your plan, if you are on the Delta or Coastal options.

If you have to go to hospital, we will pay your hospital expenses. There is no overall hospital limit for the year on any of the plans. However, we limit how much you can claim for some treatments. Contact us well before you have to go in to hospital. We will let you know what you are covered for. If you do not contact us before you go, we might not cover the costs.

We give you access to an exclusive Netcells offer. (Netcells is a stem cell banking service provided by a company called Next Biosciences.) The offer gives expectant parents the opportunity to cryogenically store stem cells from the blood and tissue of their newborn baby's umbilical cord, at a discounted rate. Your newborn's stem cells are a form of health insurance for your child and family, as the cells can potentially be used for future medical treatment.
