Top-Up (Gap) Cover is an Insurance Product that provides cover for you and your immediate family for the shortfall (Gap) resulting from any Medical Practitioner charging above the Medical Scheme Tariff for in-hospital surgical procedures and certain out of hospital procedures.

Our Top-Up (Gap) Ultimate Plus cover provides niche benefits for the more mature members needing even more comprehensive cover. Our premium cover is designed to provide the ULTIMATE cover and offers a vast range of benefits per insured to cater for unforeseen medical expense shortfalls up to 600% and provides comprehensive benefits.

This is not a medical scheme, and the cover is not the same as that of a medical scheme. This policy is not a substitute for medical scheme membership.

DEFINITION OF BENEFITS

THE FOLLOWING BENEFITS ARE SUBJECT TO THE AGGREGATE ANNUAL LIMIT OF R223 000 PER INSURED PERSON (Limit may be subject to regulatory amendment) (Sub-limits may apply)

TOP-UP (GAP) COVER:

The shortfall that arises after your medical aid has processed your account, as a result of service providers charging above scheme tariff for authorised in-hospital procedures. The benefit pays up to 600% of scheme tariff less the higher of the amount paid by the scheme or the scheme tariff for in-hospital procedures / treatments and certain specified out-of-hospital procedures/treatments. You must belong to a registered South African medical scheme to qualify for Top-Up (Gap) Cover.

PRESCRIBED MINIMUM BENEFITS:

A set of defined benefits, as per the Medical Schemes Act, in terms of which all medical schemes must cover the costs related to the diagnosis, treatment and care of any emergency medical condition; a limited set of 270 medical conditions; and 27 chronic conditions.

CO-PAYMENT BENEFIT:

A co-payment or deductible is an upfront amount that needs to be paid to the hospital/day clinic/radiologist before undergoing certain procedures, as specified by your medical scheme. When you experience a co-payment for a procedure or scan (as specified by your Medical Scheme) you would need to pay for the co-payment up-front and then claim the amount back from your Cura Gap Policy. If your medical scheme pays for co-payments from your day-to-day benefits, you may still claim the amount. This benefit includes out-of-hospital MRI/CT scans.

SUB-LIMIT BENEFIT: Internal Prostheses

The shortfall on a service provider account that is not covered where you have reached the sub-limit for Intra-Ocular lenses imposed by your Medical Scheme AND which has been authorised and paid from the In-Hospital or Major Medical benefit.

SUB-LIMIT BENEFIT: Radiology and Pathology Services

Combined capped amount where a member's available out of hospital benefits are depleted. This benefit provides an amount up to R12 000 per claim. Limited to R25 000 per policy per annum for radiology done by a radiologist or blood tests done by a Pathologist when all available day-to-day benefits have been depleted. The Radiology benefit includes sonars done by a radiologist but excludes sonars done by a GP or gynaecologist.

SUB-LIMIT BENEFIT: Dental Procedures

The cost of emergency medical treatment or a surgical procedure due to accidental impact resulting in severe physical injury or due to cancer. This benefit provides an amount once all day-to-day medical scheme savings benefits are depleted. Implants are now included as part of this benefit.

SHORTFALLS FOR DENTAL PROCEDURES IN THE ROOMS

Dentistry for children under 12 and Adults are limited to Removal of Wisdom Teeth(if paid out of the medical scheme risk portion) Excluding the consultation shortfall, however including the anaesthetists gap).
