How to proceed with the sponsorship or donations

Just send me your complete address, eventually the name of the child you want to help, how much you want to send to them and the frequency. I will send you a picture and their complete data and regular information about them and the program.

We advise you to send a minimum of \$30 USD a month per sponsored child. You can send the sum every month, every 6 months, or once a year.

We never give money directly, we use it according to the needs; paying professors and all the personal materials they need on a day by day basis.

In the case of a general donation, the funds are used where they are most needed.

Generally, for an unsponsored child, educational materials benefitting all the children, continuing education expenses for higher education, and general maintenance and expenses incurred at the preschool.

Payments with a personal check is the best. For a wire transfer you will have to add \$10.00

Thank you so much for your help!

Michele
