

AdaHacks III Division Descriptions

General Information

- Some ideas can fall under multiple categories. However, participants must emphasize their division in the description and presentation of their project.
- We think that the events of 2020 could provide inspiration for projects in any of these three categories; however, you are not required to relate your project to 2020.

Education

- General Description
 - Education is the process of teaching skills, beliefs, and ideas in either a school or personal setting
 - Implementation of more engaging and accurate methods to convey information
- Project Information
 - Projects that supplement the learning experience
 - Projects should supplement the school system or be an additional resource for students who want more practice on a certain subject
 - Can incorporate the basic school subjects (math, english, science, history, etc.) or supplement general education

Health

- General Description
 - Helping people achieve a state of mental, physical, and social wellbeing
- Project Information
 - Projects to improve the well-being of the user (could focus on fitness, stress, depression, loneliness, etc.)
 - Advancements to aid/help cope with impairments/diseases

Social Justice

- General Description
 - Working to promote equal rights, particularly in regards to unequal distribution(s) of resources, wealth, and opportunities
- Project Information
 - Projects select and address a specific social justice issue
 - Projects may aim to bring awareness to the issue and/or promote activism towards solving the specific issue
