Environmental Policy

1. Aim

PACS Marine is committed to conducting our business in an environmentally aware and responsible manner. We seek the co-operation of our employees in ensuring our work practices are conducted with minimal environmental impact.

2. Policy

PACS Marine will implement systems to decrease the volume of waste we generate. Where practical we will use environmentally friendly paint and packaging and we will recycle wherever possible.

We seek the assistance of our employees to minimize our environmental impact by:

Wherever possible wash company plant and vehicles in the designated areas

Where there are no designated areas for washing plant and vehicles ensure it is done away from driveways, gutters and roads so the run off will not enter storm water drains

Where declared weeds occur on the job site ensure all soil and seeds are removed from plant and vehicles, so transference of the weeds is avoided

Only mix paint and chemicals in the designated areas

Dispose of paint and chemicals as per the Material Safety Data Sheet (MSDS)

Never wash paint or chemicals down drains or gutters

Where a chemical spill has occurred contain and clean up the spill by following the directions on the MSDS

Remove all rubbish and waste from the work area and dispose of it appropriately

Where practical take steps to prevent soil erosion

Wherever possible reduce the impact of your work on native flora and fauna (e.g.- noise, dust)

Recycle at every available opportunity

PACS Marine seeks to identify our environmental impact and any potential risks at all our locations and implement control measures for any potential hazards.
