

To: Members of La Jolla Parks and Beaches, Inc. and Advisory Board
Re: La Jolla Parks and Beaches, Inc. Annual Report for 2019 From,
Ann Parode Dynes, President Prepared: January 27, 2020

I have prepared this report to underscore what a productive year we had in 2019 involving not just our own volunteers but members of our community who partnered with us for these accomplishments:

1. Reintroduction of the La Jolla Cove Swim which will yield other benefits such as a return of the Concerts and better maintenance of our beloved park—thanks to Judy Halter, Bob Evans and John Shannon (September)
2. Replacement of the downed trees in Scripps Park—thanks to Patrick Ahern and Bob Evans (November)
3. Replacement of the flagpole in Park Row—thanks to Carol Olten, Tom Grunow, Chris Cott and Ray Weiss (June)
4. Submission of historical designation for the Children's Pool—thanks to Diane Kane (April)
5. Active involvement in the evolution of policies governing vending in our scenic parks (SB 946)—thanks to Bob Evans (ongoing)
6. Clean up of the Fay Avenue Bike Path—thanks to Debbie Adams and Sally Miller (ongoing)
7. Initiation of the Scripps Park bathroom renovation—thanks to Judy Halter and many others (ongoing)
8. Installation of signature bike racks throughout La Jolla—thanks to Janet Stratford Collins and the La Jolla Community Foundation (September)
9. Creation of a new relationship with Bird Rock representatives, clean up initiatives at Calumet Park and other locations, and mediation of access issues—thanks to Melinda Merryweather, Barbara Dunbar, Mary Lynn Hyde and others (March)
10. Participation with the City of San Diego's scooter corral project such that La Jolla received the designations and locations for corrals which the village wanted to see happen—thanks to Janet Stratford Collins and others (summer)
11. Submission of a Capital Improvement Projects and Maintenance List to the City which was as thorough as ever assembled—thanks to Ken and Marie Hunrichs and others (October)
12. Preparation of Photographic Record of La Jolla Coastline—thanks to Melinda Merryweather and Mary Lynn Hyde (May)
13. Negotiated letter with tribes to facilitate the reinstallation of the metate at Whale View Point (June)
14. Submission of comments on the Parks Master Plan

(January) 15. Trimming the palms in the 300 block of Coast Boulevard—Bob Evans (May)

I have probably omitted something but our board should feel inspired and proud of the contributions which we made both individually and spawned in our community. And a shout out to officers for their time and efforts.
