

DAY 10 – God Uses the Wilderness to Heal Leaders

Preview

God does not ignore the wounds leaders carry. Learn how God uses wilderness seasons to heal hearts, restore wholeness, and prepare leaders to serve others from a place of health.

Scripture

Psalm 147:3

Devotional

Many leaders carry unaddressed wounds into positions of responsibility.

God does not rush past healing.

He restores the brokenhearted and binds their wounds because unresolved pain eventually affects others.

The wilderness creates space for God to address what busy life often hides. Healing prepares leaders to serve from wholeness rather than from survival.

God is not only shaping what you do.

He is restoring who you are.

Prayer

Lord, heal the places in my heart that I have learned to ignore or suppress.

Reflection

What past experience might God be inviting me to release to Him?
