# GROUP INTRODUCTION

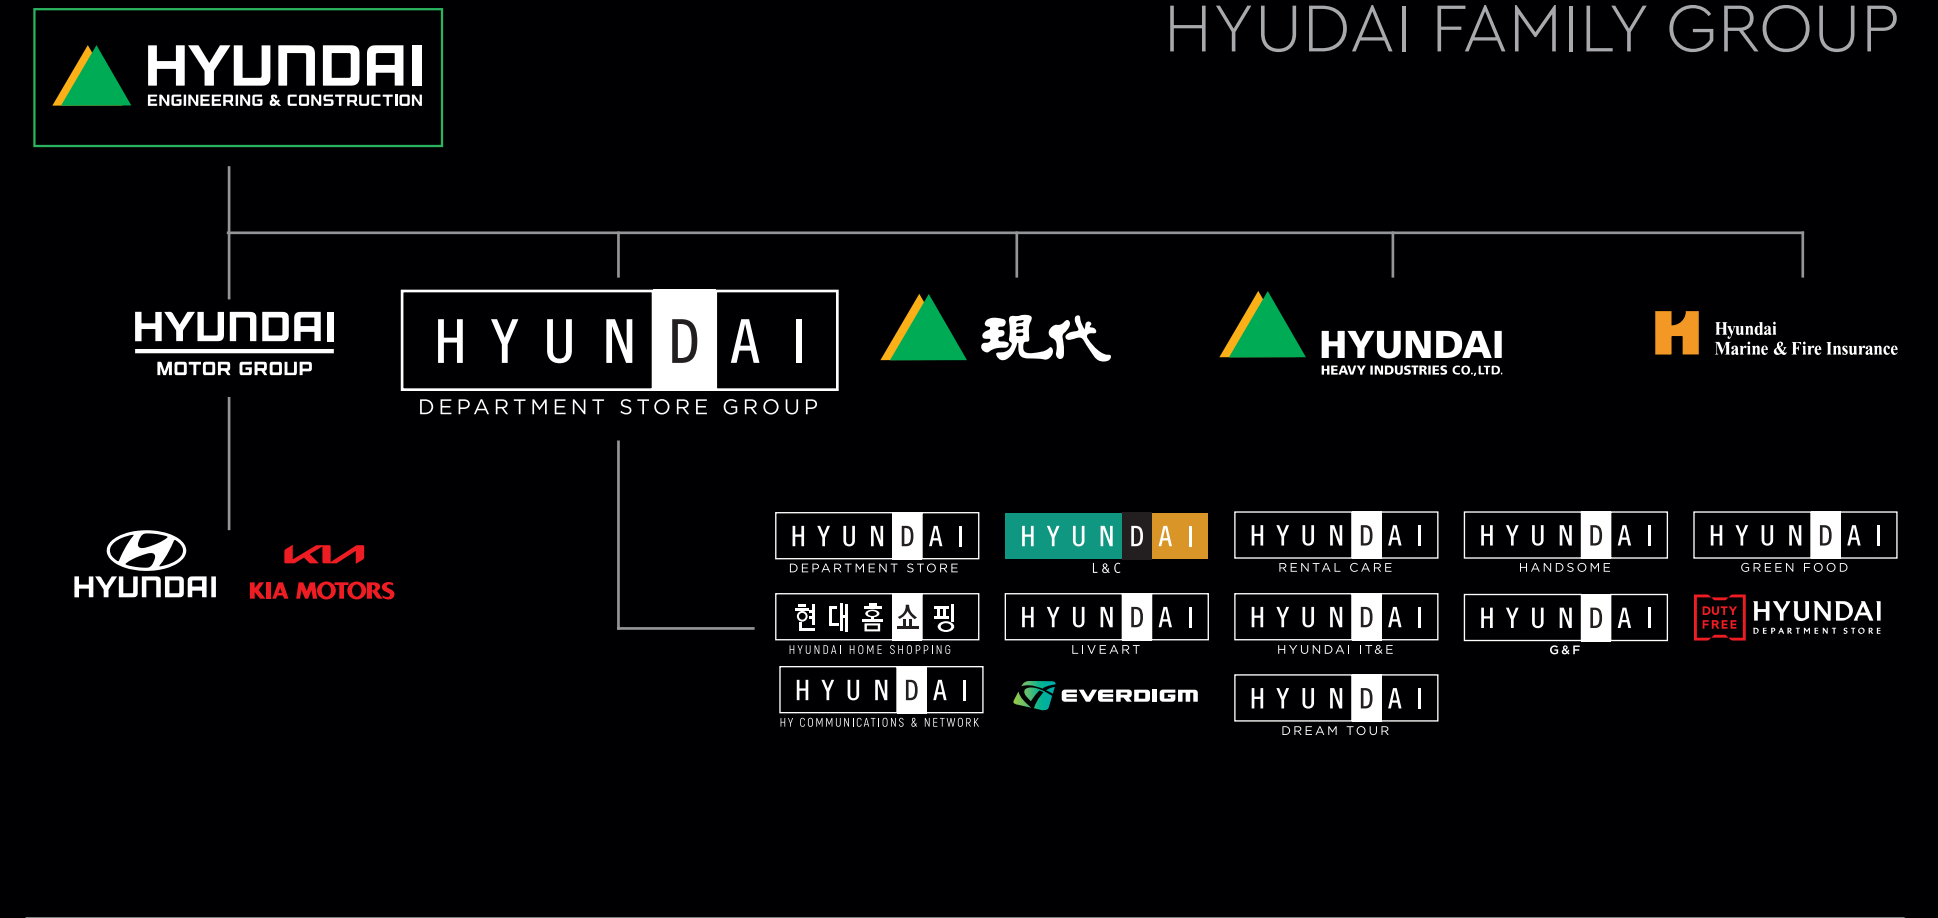

**PEBBLE**<sup>®</sup>  
IMAGINATION MADE REAL

in association with

**HYUNDAI**  
L & C

Suits any taste and decor, our Acrylic collection offers a great diversity for all types of designs. Let's celebrate life becoming a culture.

First Establishment (1947)

## Adding value to lives and spaces!

The result is always better and more appreciable when a will gets a backbone. For Pebble Decor, Hyundai Engineering and Construction has come up exactly like the core support backing our vision and belief. This association makes us proud to announce our new beginning as a "Total Living Interior Company", going beyond the boundaries of our construction material expertise. Our forte has always been innovative patterns and the quality of our products, this step of shaking hands with such an established brand has added an ounce extra to it. Based on original, high-value technology accumulated over the last half-century, and an innovative business platform, We are devoted to satisfying customers and making our world abundant. We have been focusing our R&D capabilities on developing eco- friendly, energy saving, and new construction materials. We will always strive to bring joy to abundance of people.

**Top Grade Healthy Building Material**

Stop worrying about the smell of adhesive after the construction.  
Bodaq Interior Film has the highest level of harmlessness in the industry.

Interior film, which is widely used in households, must be certified for the interior mark from the Ministry of Environment. (Applied to multi-use facilities such as apartments from December 23, 2016)

Hyundai Films the best eco-friendly certified product,

Being an excellent substitute to the traditional glass paneling or glass decoration, Acrylic sheets are 100 times more efficient and practical. Surprising, but true that the sheets are thirty times stronger than glass or any other similar products for that matter. And molded acrylic sheets are even more capable to strength. Greater flexibility and lesser breakage risks make these products precious and more in demand.

**Environment**

**We pay attention to nature**

Hyundai L&C's BODAQ is an eco-friendly film that care about healthy environment.

- Free from harmful heavy metals (lead, cadmium, mercury, hexavalent chromium, etc)
- Formaldehyde [HCHO], the substance that causes sick house syndrome, is not released.
- Minimized release of volatile organic compounds [TVOC, toluene, etc]
- It meets the safety standard [KF mark standard] applied to wallpaper and paperboard.
- Meets the safety requirements for hazardous chemicals in the Common Safety Standards of Children's Products.
- Excellent antimicrobial and anti-mold function, which helps to maintain a pleasant surrounding environment.

Heavy metal (Pb, Cd, Hg, CrVI)		Formaldehyde (HCHO)		Phthalate	
<b>Standard</b>	<b>None detected</b>	<b>Standard</b>	<b>None detected</b>	<b>Standard</b>	<b>None detected</b>
[ Pb ] 5mg/kg		0.12mg/m <sup>2</sup> h		[DEHP] less than 0.1%	
[ Cd ] 0.5mg/kg				[DBP] less than 0.1%	
[ Hg ] 2mg/kg				[BBP] less than 0.1%	
[ CrVI ] 1mg/kg					

**Hazardous chemicals' criteria for the Common Safety Standards for Children's Products**

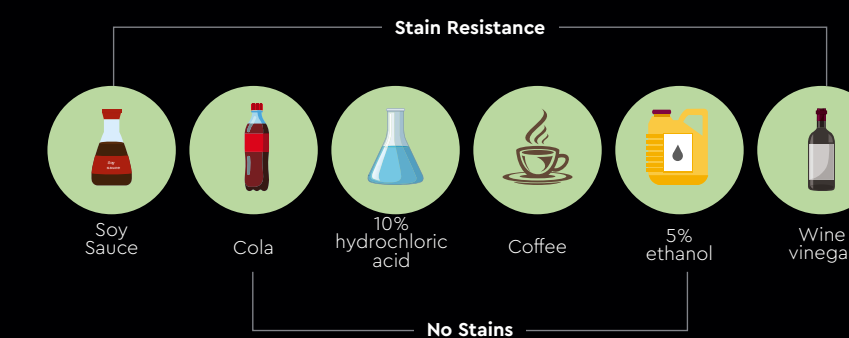

Hazardous Substances ( Sb, As, Ba, Cd, Cr, Pb, Hg, Se)			
<b>Standard</b>	<b>Satisfactory</b>	<b>Standard</b>	<b>Satisfactory</b>
[ Sb ] 60mg/kg		[ Cr ] 60mg/kg	
[ As ] 25mg/kg		[ Pb ] 90mg/kg	
[ Ba ] 1000mg/kg		[ Hg ] 60mg/kg	
[ Cd ] 75mg/kg		[ Se ] 500mg/kg	

**Safety**

**We pay attention Safety**

BODAQ is a safe interior film that can be used in any environment with excellent flame retardancy and stability.

Flame Retardancy ( Certified by the Korean Fire Industry Technical Institute)	
Carbonization length less than 20cm	<b>Satisfactory</b>
Carbonization area less than 30cm	
Flame retardant certification less than 3sec	
Smoke density 200 Ds	

Obtain the certificate, Introduction of company for bidding construction projects, construction guide of our products by inquiring with our head office or distributor.

Hyundai antibacterial interior film\* is applied with a natural antibacterial agent. It is a functional product that has acquired FITI SF certification. (\*Hyundai antibacterial interior film is a special order pattern, and certification is valid only on applicable products)

1

**Hyundai antibacterial interior film**  
Our products undergo 5 different "microorganism antibacterial" power tests.

The Hyundai antibacterial interior film, which combines eco-friendly materials and safety, We make everyday life healthier and more beautiful.

\* Inspection agency: FITI Testing & Research Institute

		BLANK	RESULT
Staphylococcus aureus	initial bacterial count	2.0 X 10 <sup>4</sup>	-
	24 hours later	3.3 X 10 <sup>4</sup>	< 0.63
	antibacterial activity	-	4.7
Escherichia coli	initial bacterial count	1.2 X 10 <sup>4</sup>	-
	24 hours later	1.1 X 10 <sup>5</sup>	13 x 10 <sup>2</sup>
	antibacterial activity	-	3.9
Pneumonia	initial bacterial count	1.6 x 10 <sup>4</sup>	-
	24 hours later	5.1 X 10 <sup>5</sup>	2.0 x 10 <sup>2</sup>
	antibacterial activity	-	3.4
Salmonella	initial bacterial count	1.3 X 10 <sup>4</sup>	-
	24 hours later	4.0 X 10 <sup>2</sup>	< 0.63
	antibacterial activity	-	5.8
MRSA	initial bacterial count	1.1 X 10 <sup>4</sup>	-
	24 hours later	5.2 x 10 <sup>4</sup>	< 0.63
	antibacterial activity	-	4.9

\* Test conditions: In accordance with the test method of JIS Z 2801: 2010 (film adhesion method)

\* Criteria for judging antibacterial effect (specific standards specified): Antibacterial activity log 2 or higher (99% or higher)

2

**Hyundai antibacterial interior film**  
All products are 100% natural antibacterial products.

The Hyundai antibacterial interior film contains a natural antibacterial agent with a porous structure. Hygienic state of the film by suppressing harmful bacteria that can proliferate on the film surface can keep.

3

**Hyundai antibacterial interior film**  
We, at Pebble Decor, are concerned about safety and all our antibacterial agents have been verified under safety meters.

4

**Hyundai antibacterial interior film**  
Supporting the growth of resource recycling society, we are proud member of green earth!

\* Inspection agency: JFRL (Japan Food Analysis Center)

PHYSICAL SAFETY	CHARACTERISTIC	RESULT	test report
acute oral toxicity test	Toxic when ingested test	Safety area LD50 Value = 2000mg / kg	No. 209030367-0025
skin irritation test	Prolonged contact inflammation test	Safety area Primary irritation factor 0.8	#  209030367-001
skin sensitization test	skin allergy reaction test	Safety area No skin sensitization	No. 209030367-004
mutagenicity test (using microorganisms reverse mutation test)	Gene DHA impact test	Safety area related colony no increase	No. 209030367-003

\* Test conditions: In accordance with the OECD Guidelines for the Testing of Chemicals

- Acute oral toxicity: according to OECD TG420 (2001)
- Skin irritation test: according to OECD TG404 (2002) and ISO10993-10 (2010)
- Skin sensitization test: according to the use of the Maximization method
- Mutagenicity test: OECD TG471, OECD TG472

A natural antibacterial agent using discarded scallop shells was applied.

# ULTRA METAL

The most appealing and functional interior solution! Every modern living should meet the three basics: usefulness, comfort, and style. These Metallic Laminates are fully redefined for the same.

## ULTRA METAL

Provide some aesthetic ways to colour your interior projects. These eye-catching Ultra Metal acrylic sheets will be there upgrading an overall appearance.

Kitchen Shutters • Wardrobe • Doors and drawer fronts • Office spaces • TV unit • Furniture

Film thickness : 0.4mm | Sheet size : 1220×2440mm | Sheet thickness : 1.5mm

### Scratch Resistance

Superior resistance to scratch 6H, abrasion and impact

### Cold Creation

Maximum gloss level than any other surface decor

### Stain Resistance

Easy to clean with soap & water

### Ideal for Vertical Applications

Let the surface feel colder and hotter to the touch!

 **PEBBLE® DECOR- PUTTING IT ALL TOGETHER  
FOR YOUR SPACE SOLUTIONS**

**High resistance to heat**

Optimized for performance, our laminates stand strong against high or adverse temperature. Advance technical modulation makes it fit for kitchen tops and corners exposed to direct sun rays.

**No stains**

Achieve 4 times longer capacity of resisting stains and abrasions compared to other similar surfaces available in market.

**Carbon Footprints**

Our consumers can be rest assured about using totally environment friendly products. We create innovative designs maintaining international safety and sustainability standards, leaving zero carbon footprints.

**Tested on gas toxicity**

The raw material used in making of our products are all of high quality. While development and application, they never release unpleasant or dangerous odor!

**Overall safety and Pbbs**

Quiet a number of processes happen on our products for quality inspections. Pebble's sheets consist no dangerous components.

**Anti microbial tests**

Molds and germs get no chance to show up on Pebble's sheets With extra ordinary anti- microbial qualities, our products remain unaffected.

**Adhesive composites**

Safety is our major concern through the surfaces we provide. When it comes to resilience and toughness, we assure the maximum strength.

**Tested by KLC for harmlessness**

With being environment friendly, our products are also consumer- safe. All such metals are used in the production that ensures complete house- hold safety.

 **PEBBLE® DECOR- PUTTING IT ALL TOGETHER FOR YOUR SPACE SOLUTIONS**

**Major savings on time and cost**

While on accomplishing a project secretly, what one hates the most is to waste time on cutting, drilling or shaping the sheets on site. Pebble acrylics saves your time on the same as its light weight and flexible to handle.

**Easy and effortless**

Acrylic's low weight allows it to be transported easily and shipped easier. Expect less stress or breakages compared to other products while moving them around.

**Low Maintenance**

Being completely protective against bacterias, heat, spills and abrasions, they are the least maintenance products. Any stain can be just wiped away with mild soap or water.

**Cleaning**

pebble acrylic, as mentioned above, is easy to clean with damp cloth or mild soap, no strong chemicals are required or advisable. Some minor scratchings and scuffing can be easily removed by hand or with a micro fiber cloth.

**Quick installation**

The installation of these sheets can be pasted with acrylic compact-able adhesives on a calibrated clean and dust free dry surface. Use of laminate bonding tapes also can be used for difficult areas.

**Proven performer**

- Pebble Acrylic wins the performance criteria because it has a single infused acrylic core into one layer.
- There is no thin, inconsistent or patchy layer of paint.
  - No fading or separation of colour layers.
  - Minor scratches on the surface will not show through as on many of other products like glass or marble acrylics.

**Environment friendly**

Leaving no impact to the environment, our products wholly manufactured under the Environment Management System. which has been independently accredited to ISO14001. The manufacturing process does not release and harmful emissions to the air, land or water. Pebble's acrylic is Hygienic.

**Maximum tensile Strength and thickness**

Providing high- end durability, thickness and strength, our products become no. 1 insisted among buyers.

Nothing will do the trick, but this one definitely will. Avoid the stubborn spots on your surfaces and furniture to eat your head and take your energy away. Acrylic stain remover will make it shine leaving it shut to stains!

Certified and tested product | Better scratch resistance  
Actual thickness | Long lasting | HD colours

Not all colours are available in all regions.  
Due to the nature of the printing process, the colours depicted  
in the brochure may vary compared to actual samples.  
Printed colours and images are to be used as a guide only.  
PEBBLE REFLECTIONS 2023 - MADE FOR INDIA

## Tips for a better installation and maintenance :

1. Ensure the originality of products by checking the sticker on it before buying any of Pebble Acrylic sheets.
2. Once you receive the product, check no product has been damaged in the transportation. Only after inspecting, proceed further for installation.
3. To avoid bubbles or wavy surface later, before installation, make sure the substrates (MDF, Particle Board, Plywood) is in good condition. Also check the surface is even and of similar thickness.
4. There should be no dust or grease on the surface. So, clean it with the help of a cloth before putting Pebble Acrylic Sheet on it.
5. Use water based adhesives only and stir it well before using. Remember : Don't mix water in it.
6. To get the best bonding forever, apply the adhesive uniformly using a brush, roller or adhesive spreader on both the surfaces, base and acrylic sheet.
7. To be able to remove air between the acrylic sheet and the base, keep minimum 2mm gap between two laminates while applying. Use soft pinch roller or normal pressing technique and the pressing should be done from the middle of the panel and move towards the sided line and corners.
8. Full bonding strength is achieved only when given sufficient amount of pressing after adhesive application that is, minimum 12 to 15 hours.
9. After installation, remove the protective film within 7 to 15 days.

## Do this :

1. Store the laminates in climate below 30 C temperature .
2. Clean the surface with water and with a non abrasive cloth. We recommend to clean with soft micro fiber cloth.
3. Use glossy surfaces only on vertical applications.

## Don't do this :

1. Do not share Pebble Acrylic sheet in a roll form.
2. Avoid using cleaners made with alcohol, solvent, petrol or oil. Using such cleaners may damage the surface of sheets.
3. Do. not use thinner on the surface of the sheet.
4. We strictly do not recommend to use Pebble Acrylic Sheets for outdoor applications. UV rays may change the shape of sheet.

## Avoid air bubbles or waves after application:

- Never mix water to adhesive. Use only water based adhesive.
- Surface must be even.
- Uncertain and frequently changing weather may cause laminates to absorb moisture and loose it again resulting in air bubbles.
- If Acrylic Laminates of size more than 8'\*2\* are used in paneling, they may end up having air bubbles.
- Lack of the time given to pressing leads to having air bubbles.
- Acrylic sheets should be kept evenly straight. If the sheets are in roll form, It should be kept straight for minimum 48 hours and then can be pressed for better results.

## You are in the right hands!

PEBBLE Decor are manufactured with aesthetics and durability in mind. when used as recommended, our laminates will last through the years. PEBBLE Decor are easy to maintain. We design our sheets using the Typical internationally recognized technical standards.

- To remove more stubborn stains, use mild household cleansers, gently wipe down with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the Acrylic sheets.
- Do not place hot cookware directly on the laminate. Prolonged exposure to temperatures above 30 degree Celsius may cause damage to the laminate surface.
- UV rays may reshape the laminate. Avoid outdoor applications.
- Have a thickness balance of +/- 10%

## Acrylic Sheets are the best options for blending edges.

To achieve a smooth and sleek look with a clear and sleek edge bending, Pebble Acrylic sheets are the best solution. Gloss level is > 96 gloss points, and hence makes it a perfect classy choice. Monolithic look between board and edge gives it an again mastered finish. Also, there is a Wide range of colors combined with trending high gloss acrylic sheets. Acrylic edge- banding made with same colour foil of acrylic sheets keeps it sober.

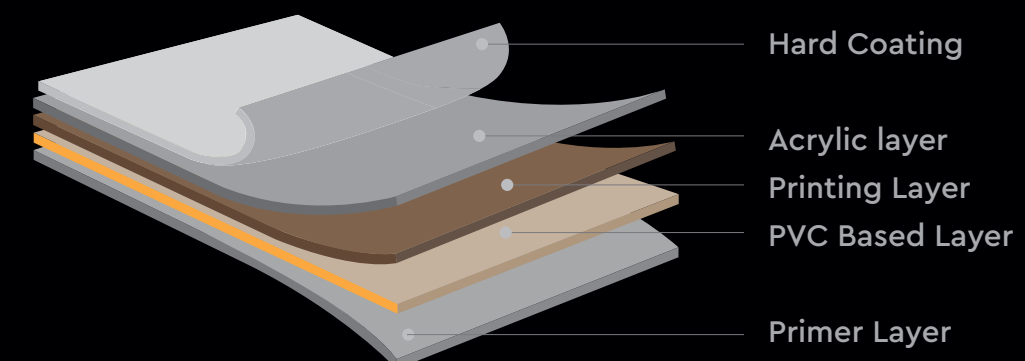

Shake it well and lightly spray on the surface.

Wipe the surface clean using a light circular motion.

Please open the roll immediately. Do not pressurize while opening roll.

# ENVIRONMENT STATEMENT

Pebble is a co extruded, high gloss, rigid thermoplastic polymer sheet consisting of a thick water clear layer which is permanently fused to a high solids color layer. Pebble is PMMA (polymethyl methacrylate) polymer which is completely inert and does not release any emissions to the environment. Pebble acrylic is ultra hygienic and does not promote bacterial growth or transmission.

The unique properties of Pebble acrylic make it ideally suited to new or refurbishment for interior vertical surfaces around the home, office or commercial environments. acrylic can be applied with a minimum of preparation over previously finished walls, reducing demolition waste and energy consumption.

Pebble acrylic consists of Carbon, Hydrogen and Oxygen and is recyclable either by mechanical, chemical or thermal means. Pebble can be ground and pelletized for reuse in sheet extrusion or injection molding. If correctly incinerated Pebble produces only water and carbon dioxide. Pebble can also be chemically reduced to its original monomer for use in other acrylic based products. Pebble's unique color

layer is achieved without the use of secondary processes or VOC's. The color and clear layers will not separate under any conditions and are not affected by moisture in any way. Pebble acrylic cannot rot and is not susceptible to termite attack.

Pebble is half the weight of an equivalent glass panel and therefore uses less energy during transportation and installation.

Pebble will only consume around 10% of the original energy consumption during recycling. In contrast to glass which consumes more than 60% of its original energy consumption during recycling.

Pebble is wholly manufactured under the Environmental Management System which has been independently accredited to ISO14001. The acrylic manufacturing process does not release any harmful emissions to air, land or water.

Additionally, the Pebble manufacturing plant uses a compact footprint and is fully self contained.
