The Single Source Solution

Payment Processing Made Simple, Secure and Seamlessly Integrated.

We've partnered with CardConnect to provide our customers with an integrated payment processing solution that will help you grow and streamline your business through their Bolt Terminal offering. The cloud-based solution simplifies the payment acceptance process with integrated devices and secures transactions with a powerful combination of P2PE and tokenization. The best part? All Bolt devices communicate directly with the Karmak platform, meaning you never have to enter a transaction twice again.

The Benefits
