# KARMAK + cardconnect

The _Single Source_ Solution

We have joined forces to bring seamlessly integrated payment processing to Karmak's Fusion platform you know and love. By taking advantage of the CardConnect integration, you will be able to manage your business from one comprehensive application.

Streamlined Payment Acceptance

Whether you use Fusion's Service Module to trace the servicing and repairs of a customer unit, or Fusion's Parts Module to manage the parts to make a repair, we have a solution for you. Easily accept payments in-person, online or over the phone.

Payment Security You Can Count On

Innovative security features like tokenization and point-to-point encryption will allow you to protect sensitive cardholder data against fraud, all while reducing the time and costs associated with maintaining PCI compliance.

Low + Transparent Processing Fees

With low pricing and easy-to-read statements, you will never be left wondering what you're paying for each month. Better yet, CardConnect will provide you with a free savings analysis to show you what you could save by switching.
