

SELLING MADE EASY

# MAKE MORE MONEY FROM YOUR KARMAK INVESTMENT

Improve your sales performance by integrating sales-i with Karmak.

## WHY SALES-I?

- **Maximize revenue** with simple dashboards that present powerful analytics in an easy format.
- **Speed up meeting prep**, call planning and contact management. Anytime, anywhere.
- **Never miss a sales opportunity** with powerful alerts, all without having to lift a finger.

## KARMAK WORKING FOR YOU

- **Generate more revenue** from your Karmak data without slaving over spreadsheets and reports.
- **Give salespeople back the time** to do what they do best: selling - not analyzing Karmak data.
- **Drill through your data** with ease and follow your natural chain of thought in any direction.

### SIMPLE INTEGRATION

Our quick and easy Karmak integration process means you'll be selling smart in no time.

### COMPLETE VISIBILITY

Deliver complete visibility into sales figures, trends and patterns directly to your sales people.

### TOTAL INSIGHT

Improve your performance with powerful insights that are instantly available to your sales team.

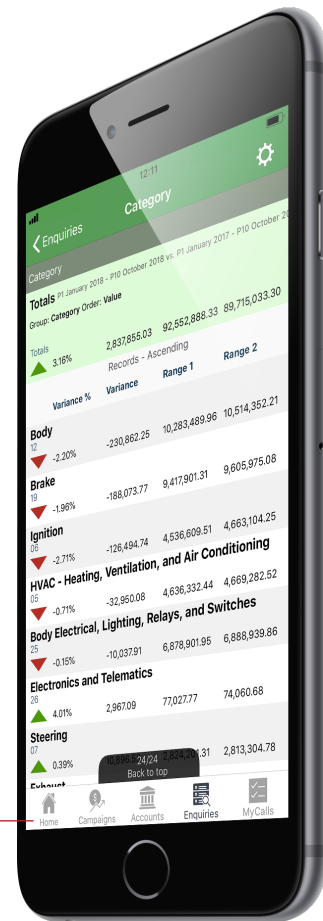

# BETTER INSIGHTS, BETTER MARGINS

*Take your sales team from zero to hero*

sales-i takes the data stored in your Karmak system and transforms it into sales ready, easy to use conversation starters for your reps such as:

- ☑ Which customers are buying one product but not the obvious product that goes with it?
- ☑ Which customers have bought from you every month for the last two years but haven't yet this month?
- ☑ Which customers are down 10% in the braking category, located in San Diego and haven't been contacted in the last month?

Sales analytics data  
anywhere, any time.

“

sales-i is quick, easy to use, all the data was in one place and I liked the fact that Parts Managers and our sales staff could use it without having to be an expert at Excel.

It ticked all the boxes and provided an all-in-one sales solution. It's given us the tools to see the big picture.
