Benefits of Choosing Atlantic Portable X-Ray

- ◆ **Timely**– X-rays will be read by our radiologists within 1 hour for routine exams and 30 minutes for all STAT exams
- ◆ **Convenient**– X-Rays are performed in the comfort of your home
- ◆ **Efficient**– No time wasted in waiting rooms
- ◆ **Cost Effective**– Eliminate costly ambulance rides and transportation services
- ◆ **Prevents exposure**– To germs and infectious diseases
- ◆ **Safer option**– For you or your family members. Prevent the possibility of further injury during transport to the hospital or imaging facility

THE APX TEAM IS COVID19 VACCINATED!

APX is taking proper measures to help stop the spread of COVID19.

Our Clients

We provide quality X-Ray services to:

- Private Residences
- Nursing Homes
- Assisted Living Facilities
- Independent Living Facilities
- Retirement Communities
- Private Doctor Practices

What Makes Us Unique?

1) Atlantic Portable X-Ray performs all exams using our state-of-the-art **Digital** x-ray equipment

Digital X-Rays...

- Are more technologically advanced than CR and Film X-rays
- Create the highest quality image, leading to a more accurate diagnosis
- Have a significant reduction in radiation exposure due to the heightened sensitivity of the digital imaging plate

2) We provide on-site acquisition of digital X-Ray images and immediate transmission to our network of Radiologists, providing a **faster turnaround time than standard X-ray facilities**

3) We are a **locally owned and operated company**, meaning:

We genuinely care about the health of our community

We believe in creating a personal, quality healthcare experience because family extends beyond home

Meet Our X-Ray Technologist, Gavin!

Gavin has worked in healthcare for over 10 years, has been an X-Ray tech RT (R) for 4 years and has recently been certified for Computed Tomography (CT). He has a background in personal training and previously worked as a Physical Therapy Aide
