

City of Butterfield News

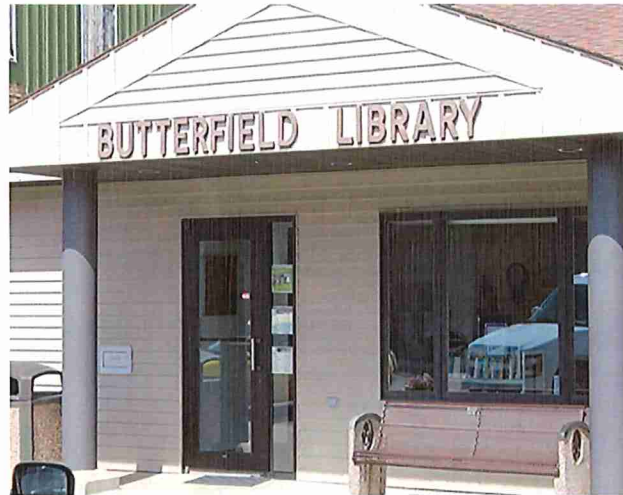

July is well known for heat warnings and advisories which can have an impact on our water and wastewater utilities, along with other utilities in the area. When and if this happens, please remember increased water demand from higher temps can result in shortages so stay tuned for water usage updates in the area.

Julio es bien conocido por las alertas y avisos de calor, los cuales pueden tener un impacto en nuestras plantas de agua y aguas residuales, junto con otros servicios públicos en la zona. Cuando y si esto sucede, por favor recuerda que el aumento en la demanda de agua por las altas temperaturas puede generar escasez, así que mantente atento a las actualizaciones sobre el uso del agua en la zona.

Looking for something to do this summer with the kids? Check out the calendar at the Butterfield Library for programs throughout the summer or stop in and ask Monique what's happening in July!

Buscas algo que hacer este verano con los niños? Consulta el calendario en la Biblioteca Butterfield para ver los programas durante todo el verano o pasa por allí y preguntale a Monique que estará pasando en julio!

We wish everyone a Safe and Happy Fourth of July!
