

core

a green-powered detoxifier.

1oz of pure nutrition.

what is core?

CORE is a green-based supplement, designed by scientists and fueled by the healthiest green and seed-based ingredients available. In just a 1oz packet, CORE delivers more antioxidants, vitamins, and minerals per-part than 8-9 servings of fruits and vegetables. It's truly a superfood supplement.

how does core help your body?

We designed CORE specifically for the majority of humankind who fails to get their daily greens. But, even for the few who do, CORE acts as a detoxifier, cleaning and improving organ function. It can also manage blood pressure, insulin, levels, and cholesterol already within a healthy range. Additionally, CORE reduces tissue inflammation, boosts your immune system, and improves cognition and brain function. Simply said, drinking your greens has never done more for your body.

Supplement Facts

Serving Size: 1 fl oz (1 pouch)

may contain wheat / gluten

key ingredients

black cumin seed: One of the most widely-used seeds in the world. Its high antioxidant concentration, vitamin and mineral profile, as well as chemical compounds make it a powerhouse that's both scientifically and historically-backed.

kale: One of the original superfoods. Packed with sulfur, dietary fiber, and more, Kale aids fat digestion and absorption, and the regulation of blood sugar.

cranberry seed: Contains high levels of polyunsaturated and monounsaturated fatty acids, phospholipids, phytosterols, and large amounts of antioxidants.

spirulina: A green algae, spirulina can help enhance brain function, improve white blood cell count, and liver health.

milk thistle seed: One of the world's most powerful liver detoxifiers. The oil that we extract from this seed is rich with antioxidants and other, cleansing compounds.

wheat grass: A superfood whose nutrient profile encompasses a heavy concentration of chlorophyll, vitamins, minerals, and digestive enzymes.
