

How to Join Facebook

In order to have a Facebook account you must have an email address. Go to www.facebook.com

Once you are on this site you should see this on the right side:

The image shows the Facebook sign-up form. At the top, it says "Create a New Account" in a large, bold font, followed by "It's quick and easy." Below this are four input fields: "First name", "Last name", "Mobile number or email", and "New password". Under the "New password" field is the "Birthday" section, which includes three dropdown menus for month (set to "Mar"), day (set to "18"), and year (set to "1995"), along with a help icon. Below the birthday section is the "Gender" section with three radio button options: "Female", "Male", and "Custom", each with a help icon. At the bottom of the form is a green "Sign Up" button. Below the form, there is a small disclaimer: "By clicking Sign Up, you agree to our Terms, Data Policy and Cookies Policy. You may receive SMS Notifications from us and can opt out any time."

Fill out the information and click Sign Up. After this is entered you will follow the prompted steps. You will need to have your email window open because you will need to verify your email.

There are several questions that you can SKIP if you do not want to share personal information. You do not have to add a picture either.
