ACID FOAM designed to clean, brighten, and shine the exterior and interior of food contact surfaces such as bells, cutting tables, utensils, and other food handling and processing equipment.

## **DIRECTIONS**

PREPARATION: Once all food products have been removed from the immediate area to be cleaned, clean surface of any large particles and wash with an all purpose cleaner/degreaser to remove any dirt or grease that may be left on the surface. Rinse area clean with potable water.

APPLICATION: Using a foaming applicator and a dilution of 4 parts water to I part solution, spray an even coat of ACID FOAM on to the area to be cleaned. Allow the cleaning foam to do all the work. Do not allow ACID FOAM to dry! Repeat procedure and agitate with a stiff bristled brush for heavily scaled or rusted surfaces. Once surface has been cleaned, rinse with potable water.
