

Sermon Title: The Gifts That Nourished God

“Sacred Substances for the Savior: How the Three Wise Men Offered Fuel for the Flesh of the Divine”

Opening Scripture Reading

"And when they were come into the house, they saw the young child with Mary his mother, and fell down, and worshipped him: and when they had opened their treasures, they presented unto him gifts; gold, and frankincense, and myrrh."

— Matthew 2:11 (KJV)

I. Why These Three Gifts?

The gifts the Wise Men brought were not arbitrary, nor merely symbolic.

- **Frankincense** – a resin used in sacred rituals and **neurological healing**
- **Myrrh** – a powerful antiseptic and **wound healer**
- **Gold** – not currency, but a **divine element**, perhaps in its **monoatomic (ORMUS) form**, for **cellular and energetic regeneration**

These weren't just tributes — they were **healing agents**, **fuel for the body**, and **tools of divine alignment**.

II. Frankincense: The Breath of the Mind

- Frankincense contains **boswellic acids**, which **reduce inflammation**, especially in the **brain and nervous system**.
- Used in **ancient temple incense**, it represents **connection to the divine breath**, or “Ruach” — the **Spirit of God**.
- Mary, recovering from labor, would have inhaled and absorbed this **neurologically repairing** resin.
- **Modern science** shows frankincense may:
 - Reduce depression and anxiety
 - Stimulate **limbic brain regions** tied to memory and emotion
 - Enhance immune function

Application: The frankincense healed Mary's **mind and spirit**, keeping her emotionally clear and spiritually aligned to raise the Christ child.

III. Myrrh: The Blood Healer

- Myrrh is a **resin with antibacterial, antiviral, and anti-inflammatory properties**.
- In ancient times, it was used for:
 - **Postpartum care** (healing wounds, reducing pain)
 - **Embalming** (preserving sacred flesh)
 - **Digestive and uterine tonics**

In Mary's case:

- Myrrh helped her **uterus contract and recover**
- Cleansed the blood, protecting her from infection
- Nourished the endocrine system and liver — vital for **healthy breast milk production**

Application: The myrrh restored Mary's **flesh and blood**, empowering her to **nourish** the divine flesh of Jesus.

IV. Gold: The Fuel of the Gods

Let's interpret “gold” not just as metal, but as **monoatomic gold (ORMUS)** — a high-spin state

mineral **used by ancient Egyptians and mystics.**

- Known to **stimulate DNA repair**
- Enhances **cellular communication**
- Amplifies **electromagnetic coherence** in the brain and heart
- May **nourish the pineal gland**, increasing intuition and spiritual awareness

If Mary consumed monoatomic gold:

- Her **milk would be molecularly enhanced**
- Jesus would receive **perfect electrical nutrition** — enhancing growth, brain development, and spiritual perception
- The gift of gold was not about wealth — it was about **fueling a divine vessel**
α *Application:* The gold activated a **light body** in both Mary and Jesus — a **conduit of divine energy** into human form.

V. Mary's Milk: Heaven's Alchemy

The **combined effect** of these gifts:

- **Frankincense** purified the **spirit and nervous system**
- **Myrrh** restored the **body and blood**
- **Monoatomic gold** fueled the **electrical essence of life**

Mary's milk became a **supernal substance**, a literal **divine recipe**:

- Hormone-balanced
- Mineral-rich
- Spiritually attuned
- A carrier of **light-coded nutrients** that helped Jesus **embody God fully** in human form

VI. Closing: These Gifts Are for Us Too

"I am the bread of life... whoever eats of me shall live."

— John 6:35

Jesus *became* the eternal nourishment. But first, **he had to be nourished.**

And now, we must ask:

- What are **you feeding your spirit**?
- Are you taking in substances that repair the mind and nervous system?
- Are you healing your bloodline — your womb, your voice, your divine inheritance?
- Are you seeking **spiritual minerals**, not worldly gold?
