

Our Addiction

(From Sex Addicts Anonymous, page 3, paragraphs 1-2)

Before coming to Sex Addicts Anonymous, many of us never knew that our problem had a name. All we knew was that we couldn't control our sexual behavior. For us, sex was a consuming way of life. Although the details of our stories were different, our problem was the same. We were addicted to sexual behaviors that we returned to over and over, despite the consequences.

Sex addiction is a disease affecting the mind, body, and spirit. It is progressive, with the behavior and its consequences usually becoming more severe over time. We experience it as compulsion, which is an urge that is stronger than our will to resist, and as obsession, which is a mental preoccupation with sexual behavior and fantasies. In S.A.A. we have come to call our addictive sexual behavior *acting out*.

Our Program

(From Sex Addicts Anonymous, page 20)

Attending SAA meetings starts us on a new way of life. But while the SAA fellowship supports our recovery, the actual work of recovery is described in the Twelve Steps. Meetings are forums for learning how to integrate the steps into our lives. Working the Twelve Steps leads to a spiritual transformation that results in sustainable relief from our addiction.

When we start attending meetings of Sex Addicts Anonymous, many of us are surprised to meet people who are enjoying life, experiencing freedom from the painful, compulsive behaviors that had brought them to SAA. Listening to other members share about their recovery, we gradually realize that in order to make the same kind of progress, we need to be willing to do whatever it takes to get sexually abstinent and stay abstinent. We have learned from hard experience that we cannot achieve and maintain abstinence if we aren't willing to change our way of life. But if we can honestly face our problems, and are willing to change, the Twelve Steps of SAA will lead to an awakening that allows us to live a new way of life according to spiritual principles. Taking these steps allows fundamental change to occur in our lives. They are the foundation of our recovery.
