## Testimony

**What have both of you taken away from RRR'S Programme?**

**From a father's side; I've learnt how to better myself for my son and my partner. Hold down a full-time job and Just to be a family man and provide for them.**

**From a mother/partner's side; Since my partner has come back from RRR ORGANISATIONS I've loved having my partner home with us he's a better man not just for me and our son but for himself mainly. We're more civil with each other and more family Orientated. But the main thing we've accomplished is keeping our family and ourselves stable and out of the system.**

**Since being away from RRR how many times have you sought help from MSD? As in back on a benefit? Absolutely Nilch as I've been in full-time employment since I left RRR ORGANISATIONS.**

**Reoffended/ attending any new court appearances.? No Reoffending Nor any new court appearances thanks to the support of RRR ORGANISATIONS. and Support from my FAMILY.**

**And lastly as a mother/partner you met your partner halfway in providing the roof for him to be transferred from us to you;**

**Was that easy? No , well it wasn't a walk in the park. Especially being in a new city. And the situation we were in at the time But with all the support through every dark tunnel there is a Light.**

**What drove you to ensuring the house was sorted? Just knowing my partner was needing a bail address and was nearly ready to come home and knowing that we were gonna be a family again I fought to find a nice home not just for my partner but for our 2year old son aswel. I figured I couldn't rest until I found a safe , warm , family home that was safe and secure for our little whanau and when I rung RRR ORGANISATIONS and told Esther I found a house and she was wrapped because it ment my family was gonna be Whole again 😊**

**And finally;**

**RRR we're in the process of expanding around the country. Do you see a need for what we do? Most definitely I think anyone who walks into RRR ORGANISATIONS Hands are gonna be astounded with the work use provide for Men and their Family's just like use have done with my Whanau and for that we thank all of use at RRR ORGANISATIONS for the wonderful work use have done and will continue to keep doing. So THANKUSE AGAIN.**

## Testimony

**Connor – 9 months. My goal was to become employed, to keep the job longer than a few weeks. To be given the chance to prove myself as a reliable worker. I wouldn't have had this job if I had stayed anywhere else, I would have quit. Now I am a permanent, I have a car and now independent where I have control over my life and where I am going. I am domesticated and happy to provide the necessary needs for myself to continue progress. My challenges - I am challenged with dyslexia and dyspraxia. These were once my struggles that I had longed to overcome. They are still challenging, but the Triple R program has helped me cope with these and I have been able to do what I dream to do. My mum and family will be real happy for me, cos I'm independent.**

### **BIG C**

#### **Connor's Mum**

Here is my testimonial for Connor.

'Connor came to Hastings looking for work but struggled with employment in the Kiwifruit, grape and apple industries. When he found Esther and Levi he had lost his job in kiwifruit so they put him on their 14-week programme. He has now held a permanent job at the Tannery in Hastings and hasn't looked back. With their encouragement and support he is now looked at with respect from his peers. He hasn't missed one day's work. His flat mates also hold him in high regard. His confidence has grown, and he is very happy within himself.

Without Ester and Levi and their staff, he wouldn't be where he is now. Thank you to all of you, it's wonderful to see him happy.'

**(1) Question: what can you say about RRR**

**Answer: Never been to a programme like this. It was great because it focused on how to support my kids. I've done programmes, courses everything and usually end up in jail again. Being with Esther & Levi, they taught me to put all that energy and tools to good use in being a provider for my children. And I am forever grateful. I'm still with my Mrs n Kids even though shes a nagger!!!**

## Brutha Hone's Parent's Testimony

[norsodSeptgl3m70mi7ec1316h3m2m1110u610aJ71092ic7014 8n32ff19](#) ·

Levi & Esther, Your mahi is selfless & the principles of your organization works. I have witnessed the transformation of a man who rebelled against society & walked a very dark, scary path. You were that lighthouse beacon that shone & said this man doesn't belong in jail. You listened to loved ones whose voices are never heard by the judicial system.

Your acceptance & non judgmental approach as well as a firm loving base is phenomenal. Your reward is not of monetary or recognition. Your reward is knowing that you have given these men back their mana, a place to confidently believe in their own potential to contribute back to society, to reflect, to heal, to reconnect.

That is truly a rare & unique gift which is priceless. Only certain people possess these attributes and you both along with an amazing mostly voluntary team have this. Words cannot convey the deepest appreciation, utmost respect & aroha I feel. God bless you all.

**Harlen – 5 months. I came here wanting to find employment so I can provide for my children. I wanted a new start and to get away from old associations that no longer serve a purpose in my life. I found it challenging to change in an environment that was well known to me. It has been a struggle relearning new things and trying to overcome the old me. The Triple R program has given me stability and the benefit of the doubt that I can achieve my goals. So far they've been right, with time and patience, Triple R program stood by me till I found my pathway, no one or service has ever done that for me before. My challenges – stay out of prison, employment and estranging from old associations. This program has provided me with the opportunities of healing my past traumas, coping with difficult issues, and moving forward in confidence and self-worth.**

**Adam – 6 weeks. Wasn't really sure. Just wanted somewhere to go where I could figure it out. I was estranged by probation from Wellington, leaving me stranded. So I was directed to be transferred to Hawkes Bay. Probation found Triple R for me who was the only one that accepted me after many declines. The reintegration into my new life has been life changing since being on the program. I had a job within the first week of getting out, I hadn't worked for many years. Its truly been an eye-opener being on this program. Ive been incarcerated for half my life, Ive been conditioned or institutionalised, I feel like Im trying to walk again, a bit of a culture shock. Triple R and the other brothers have helped me adjust, learn about this new society I have been absent from, and how to become part of it. My new life is developing, I am working towards my full licence, and my building qualifications. I have found a stable place that will manaaki my journey, help me rebuild and strengthen my life.**

**Lindsay – 3 months. To better myself as a person. To have a healthier structure in my life and just be the Tane I want to be. The Triple R program has saved my life, I would have been back in jail by now. I have somewhere that is stable to manaaki and support my journey. I have structure in my life again and a clear pathway of my future. My challenges – trying to find likeminded people who are wanting change. Here on the Triple R program I have that manaaki (kinship) and matauranga (shared knowledge and support)**
