ARTCARE™ Age-Defying Protection

Artcare products feature the patented MicroChamber® technology that provides a preventative conservation protection unavailable with other matboard. A unique combination of zeolites and buffers traps and neutralizes oxidizing gasses, other pre-acidic gasses, and degradative by-products – giving Artcare boards the ability to actively protect art and photographs against attack by external pollutants and internal vices.

Museum Quality Protection

Only Artcare offers active preservation for treasured art and photographs that your customers will value forever.

	Artcare™ Archival Matboards	OTHER Conservation Matboards
Slows art and paper degradation	YES	NO
Neutralizes acid by-products	YES	NO
Protects against damaging pollutants	YES	NO
Acid-free and lignin-free	YES	YES
Fade and bleed resistant	YES*	YES*
Buffered to maintain alkaline pH	YES	YES

* Bainbridge audits every production lot to ensure conformance to industry standards for optimum fade and bleed resistance. Not all conservation matboards meet these stringent standards. Does not apply to fabric surfaces.

See the Artcare Difference

Artcare™ Archival Protection

OTHER Archival Protection

In independent lab tests, the images above were exposed to concentrated doses of nitrogen dioxide, the most common air pollutant. Both were tested in the same testing chamber for the same length of time. Neither were exposed to light during testing. The results prove the proactive performance of the Artcare Archival System.

Library of Congress study proves effectiveness of Artcare Technology

- The zeolite in Artcare **absorbs pollutants** more effectively than rag board without zeolites. Artcare boards outperform traditional museum board.
- Artcare boards **trap and hold** pollutants better than any other archival board
- Library of Congress tests prove that Artcare works in **real-world** air pollution concentrations

Alphamat® Artcare Technical Specifications

Furnish:

100% virgin alpha-cellulose fiber which meets the most stringent standards for stability and permanence. Tests conducted in accordance with TAPPI Method T-236 om-85 / ISO 302 indicate the board to be free of groundwood and lignin.

pH value:

An alkaline pH of 8.9 +/- .4 indicated using TAPPI Method T-509 om-88 cold extraction on slurried pulp.

Buffer:

Alkaline reserve of 3-5% measured by ANSI IT9.2-1991 Sec 5.2.

Molecular Traps:

Contains molecular traps synthesized specifically for adsorption of air pollution gasses and degradative by-products of artwork, photographic media and wood mouldings.

Lightfastness:

Fade resistance established using a Xenon Fadometer in accordance with ASTM D3424. Alphamat colors exhibit less than 2.5 point brightness shift.

Bleed Resistance:

No bleed visible after 48-hour submersion using method FACTS EXPMMB-2000 Sec.10.03.

Resistance to Aging:

Samples tested in air circulation oven for 12 days at 100°C and for 10 days in temperature humidity chamber at 100°F and 90% relative humidity. All board components remained unchanged in appearance and strength.

Sizing & Adhesives:

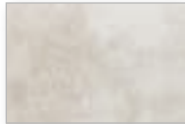

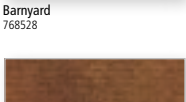

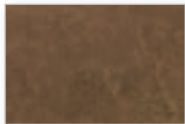

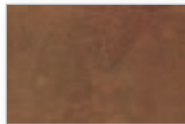

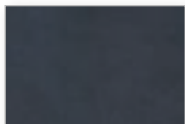

Water-based alkaline adhesive with no solvents is used to adhere component parts of Alphamat boards.

Meets quality standards set by the Fine Art Trade Guild

ALPHAMAT® ARTCARE™ Specialties

The most extensive assortment of distinctive surface textures designed to enhance and embellish your creative matting. 100% archival. Featuring Artcare advanced protection.

Complete your framing package with Bainbridge® Foamboard.

The right foamboard for every job!

ARTCARE™ ARCHIVAL FOAMBOARDS

Quite simply, the only truly archival foamboards available

Proven to provide the best conservation protection of any foamboard in the industry, Artcare Foamboard absorbs and neutralizes harmful gases from within the foam AND pollutant gases from the environment, to protect art from every angle. Don't take chances-choose the safest foamboard for your conservation framing.

All Foamboard is NOT Created Equal!	ARTCARE™ ARCHIVAL FOAMBOARD	Acid-Free Foamboard

Blocks harmful pollutant gases from environment	YES	NO
Conservation Quality surface papers	YES	SOMETIMES
Textured surface for better adhesive grip	YES	SOMETIMES
Available in 100% reversible, low-temp heat-activated Restore™	YES	NO

Bainbridge® Traditional Foamboards.

Offering a comprehensive assortment of Acid-Free surfaces, white clay coat and all-black foamboards. Available in all sizes and thicknesses you need!

Bainbridge® Adhesive Foamboards.

Heat-activated and self-adhesive selections to accommodate a full variety of media.

PRODUCT	FEATURES			Paper pH	Available in black paper/black foam	Suitable for hinge mounts	Suitable for dry mount tissue	Suitable for wet mount	WHEN TO USE
	Contains Artcare technology to block off-gassing from foam core, provides fire and verified archival protection	Certified archival paper 100% virgin fiber, pH 8.5, buffer reserve, no table bleed or optical brighteners	Conservation						
Artcare™ Archival Rag-Surface Foamboard	YES	YES	Conservation 8.5		YES	YES	YES		The only truly archival foamboard in the industry. For applications where 100% archival protection is desired.
Artcare™ Archival Foamboard	YES	YES	Conservation 8.5	YES	YES	YES	YES		For unique soft texture, use Artcare Rag Surface. Where black background is desirable, use Artcare Black and where unique soft texture of rag paper is desirable.
Artcare™ Archival Restore Foamboard	YES	YES	Conservation 8.5		YES	YES	YES		For archival mounting where Artcare off-gassing filter is important, with the convenience of heat-activated adhesive combined with 100% reversibility to meet conservation standards.
Bainbridge® Conservation Acid-Free Foamboard		YES	Conservation 8.5		YES	YES			Featuring lightweight white acid-free liners. For economical conservation mounting. Not recommended for wet mounts.
Bainbridge® Standard Foamboard			Acid-Free 7.4	YES	YES	YES	YES		For all non archival mounting. Where black backing is desirable, use All Black. For extra rigidity use Smoothmount White or Black.
Bainbridge® Smoothmount 1/4" Foamboard			Acid-Free 7.4	YES	YES	YES	YES		
Speedmount™ Heat-Activated Foamboard			Acid-Free 7.4	YES					For non-archival permanent mounting of heat-sensitive media using heat or vacuum press. Where black backing is desirable use Speedmount Black.
Bainbridge® Heat-Activated Foamboard			Acid-Free 7.4	YES					For non-archival permanent mounting of traditional media using heat or vacuum press. Where black backing is desirable, use Heat Activated Black.
Bainbridge® Self-Adhesive Foamboard			Acid-Free 7.4	YES					For non-archival permanent mounting where media heat tolerance is a concern or not defined. Where black backing is desirable, use Self Adhesive Black.
NEW Bainbridge® Filler Foam			Neutral 6.5-7.0						Tan kraft liners on black foam. For use as a filler board. Not recommended for art mounting.

		Heat Activated Adhesive		Adhesive pH	Reversible Adhesive can be removed from image with no residual	Repositionable can be lifted and replaced on adhesive
		Self-Adhesive	Alkaline			
Artcare™ Archival Restore Foamboard	150°		Alkaline 8.4	YES	YES	
Speedmount™ Heat-Activated Foamboard	150°		Alkaline 8.4			
Bainbridge® Heat-Activated Foamboard	180°		Alkaline 8.4			
Bainbridge® Self-Adhesive Foamboard		YES	Neutral		initially, then permanent	

Tips for Success with Heat-Activated Foamboards

- 1) Calibrate your press to understand its real temperature
- 2) Preheat press with release material in the press
- 3) Always check foam surface for dust/lint before positioning artwork.
 - Bainbridge® unique dry adhesives allow you to simply brush away any dirt
- 4) Start at the lowest recommended temperature and dwell time.
 - If bond is not adequate, increase dwell time before increasing temperature
 - When increasing temperature, move in 5-10° increments
- 5) Dwell time in vacuum press begins AFTER press has reached full draw.
 - Usually about 30 seconds after start
- 6) Optimal bonds and appearance are achieved by cooling mounted image beneath a smooth, even weight
- 7) Allow art to cool before assessing bond strength

All Bainbridge[®] mat and foam boards are made with pride in Bridgeview, Illinois, USA. Our dedicated employees are experts in quality assurance, manufacturing, and customer-focused distribution and service. And just as we are committed to producing the finest mat and foam boards in the industry, we are equally committed to protecting the world in which we frame- we proudly purchase raw materials from FSC certified suppliers and follow proactive recycling practices in our office and manufacturing facility.
