

## A Bi-Monthly Publication from the *Warren Warriors*

Volume 16, Issue 1  
Sept/Oct 2012

### REVIVE 2012

Casa de Gloria hosted our first Conference prophetically entitled **Revive 2012** and thanks to everyone who prayed and participated, it was a huge success. Through the 3 day event over 350 from 6 local churches attended. God in His perfect timing, sent two young gift men from Acayucan, (a town 1 ½ hours south of us) to work with CDG's worship team. When they asked to come, they didn't know we were planning this event. He also sent Pastor Troy Thomas, a gifted evangelist who through his illustrated sermons brought the Word of God to life and made it easy for those in attendance to understand & apply it to their everyday lives. In La Barra [Upper left photo] Raul

joined him in a Spanish - English duet. Thank you Lord, a fresh renewal was sparked in everyone who participated.

### VISITING THE SICK

It is a joy to watch God meet the needs of His people. Santos, the young man pictures above was milking cows 4 years ago when a cow kicked his leg and shattered it. He had a steel rod and pins inserted but 3 years later the steel rod begins

to resurface and none of his family care enough to do anything about it. We meet Santos expectantly and Pat took him directly to the Dr. who performed his operation 4 years ago. He's never had a birth certificate and doesn't know how old he is. Without this document he doesn't qualify for free medical care and will probably not pursue the operation due to this tiny obstacle, please pray that he does. Suamy [Upper right] received a lot of encouragement from the groups that came in. She is enrolled in our Video Bible School and with some leg supports Pat designed for a wheel chair, she regularly

attends church again. Agree with us for her divine healing. Santos [Bottom photo] is 94 years old and was the first Christian in Tecolapan. We stopped in to pray for him & he ended up encouraging us.

## SMILES EVERYONE, SMILES!

Cratisa Caldwell, a young enthusiastic dentist, came in with Pastor Troy Thomas and his wife Shirley. The ladies in CDG brought traditional foods for these two ladies to taste for Saturday's meeting and for the ladies in La Barra it was the first time they ever played musical chairs. Cratisa or C. C. [Si Si in Spanish] for short, was the guest speaker at the Ladies meetings on Saturday afternoon in Casa De Gloria, Tuesday afternoon in La Barra, and again on Wednesday night at the Ladies meeting at the waterfall church under Pastor Brigedo. She also shared a moment on Monday night at a General meeting in La Barra. Her love & huge smile won

the hearts of the people she met and they brought her gifts of appreciation to show for it. Shirley Thomas spoke to the ladies in La Barra about being the Proverbs 31 virtuous woman and to much to our surprise; it was the first time many had ever been taught on this subject. Comments and smiles from the local body of believers circulated throughout their visit as the ladies who heard their messages felt challenged and refreshed by them.

When the water truck isn't delivering 5 gallon jugs of water to the surrounding

communities, it is used to transport everything we need to hold services at the Hall we rent every Sunday. We recently acquired a covered frame, benches and tarpaulin so we could transport people, water jugs or equipment to any of our mission locations in the rain or sunshine. Now to teach those with Dr. Licenses to drive!

## MUSICIANS ON THE RISE

Nato was 5 years old when he knew God gave him the

gift to play the drums. We met him at 10 years old and witnessed the anointing on his life. Nato & Victor, a high school buddy and longtime friend, donated their time to help fine tune our Praise and Worship team.

## BLESSED TO GIVE

Casa De Gloria with the many resources received through the years has been fortunate to pass the blessing onto others. Recently we were able to supply *Psalms 91* both adult and children's versions, *31 days of Prayer*, & *31 days of Praise* to two missionaries, David who ministers in the local jail [Top left photo] and Eligeo, a Mexican missionary to Honduras. [Bottom left photo] Eligeo came to translate for Pastor Troy Thomas at our *Revive 2012 Congreso* and we noticed he had trouble reading his Bible. So we

made an appointment for him to see an Ophthalmologist. Troy & CDG saw to it that he received new transitional lenses eye glasses. Now he can read the fine print on anything especially in His Bible. New Testaments were passed out to new converts at a Pastoral Unity Meeting where 6 churches united to hear an evangelist from Puebla. [Middle picture left] In October, Nato and Victor [pictured upper right corner] came in to work with our Praise & Worship team. Both of these musicians work together in their own studio, teach music lessons, and

record their own music. CDG donated a sound board we had because the one they had they was borrowed. These two young men donated their time and expertise on their own accord and God honored their servants' hearts.

## HEDGE OF PROTECTION IN MORELOS

After several years of desiring to build a protective wall around the property in Morelos and with accordance to the finances that were designated for this work project, Morelos received

a concrete block knee wall with barred fence across the front of the property before funds ran out to finish this project. Pedro [Far right] loves to play baseball so much that he doesn't pay attention to the season's schedule. CDG is planning to team up with Pedro in an effort to win Morelos for Jesus by joining them in their community baseball league to be more involved in the community. Their new season starts in January 2013.

We will be stateside for the months of November & December. Contact us if your church, church's cell or youth group would like us to share about what the Lord is doing in San Andres Tuxtla, Veracruz, Mexico Contact information found on page 4.

## INSPIRED BY FRUIT

We are accustomed to using colored tissue paper to fill gift bags but in San Andres for over 20 years you can see these giant tissue paper hot air balloons fill the sky every September. They are so big boom lifts are used to hoist them off the ground while they ignite a ball of kerosene soaked gauze to create the hot air. If not executed properly the wind will catch the paper balloon on fire and it will come crashing to the ground as seen in the pictures to the left. Itloma, [right] a

tropical fruit common to our area is the inspiration for the World's largest tissue paper hot air balloons with the most points on record and each year Guinness Book of World Records is available to add the new record in their book. This year a balloon fell just a few feet from us and the local firemen armed with fire extinguishers ran to put out the fire on the tin roof and carried the charred remains through the crowd. This annual event is indigenous to San Andres.
