The Sid Dickens 2020 Holiday Collection ushers in the festive season with classic Yuletide motifs. Crafted with soft pops of colour, these images bring forth memories of simple times and nostalgic traditions. The sight of Father Christmas, who comes bearing handmade toys, brings childlike joy. Every bow on the Christmas tree is bejewelled with delicate glowing ornaments. 'Tis the time of the year when angels watch in delight at the harmony in the world. This collection captures the innocence and jubilation of the holiday season and inspires us to nurture our inner child.
