

"I'm listening to the new "Honi Deaton & Dream" project right now and I'm speechless. This is one of the best, if not the best new release of acoustic/bluegrass/roots music (or whatever the PC name is now) that I've heard in a long time. The vocals, instrumentals, and especially the songwriting are superb. The choice of cover material is also wonderful. "I'm Not Lisa" is a killer."
